A Christian Perspective On Euthanasia:

DYING TO KILL Kieran Beville, 2014-11-26 This is a comprehensive study of euthanasia and assisted suicide It traces the historical debate examines the legal status of such activity in different countries and explores the political medical and moral matters surrounding these emotive and controversial subjects in various cultural contexts The key advocates and pioneers of this agenda driven movement such as the late Jack Kevorkian popularly known as Dr Death and Philip Nitschke founder of Exit International are profiled Not only are the elderly and disabled becoming increasingly vulnerable but children psychiatric patients the depressed and those who are simply tired of life are now on a slippery slope into a dystopian nightmare The spotlight is brought to bear on the Netherlands in particular where palliative care and the hospice movement are greatly underdeveloped as a result of legalization These dubious services are now offered as part of normal medical care in Holland where it is deemed more cost effective to be given a lethal injection The vital role of physicians as healers in society must be preserved and the important but neglected spiritual dimension of death must be explored Thus a biblical view of human life is presented Death and bereavement are universal phenomena and people of all faiths and those of none have a legitimate right to comment However the historic Christian tradition is struggling to be heard in the clamor for personal autonomy and civil liberties in a multi cultural society that is becoming increasingly secular This work provides an ethical framework in which euthanasia and assisted suicide can be evaluated These issues are on the radar indicating a collision course with Christian values It is time for Christians to be alert and to present the case that these are not satisfactory solutions to legitimate end of life concerns

The Center for Bioethics and Human Dignity Presents Dignity and Dying John Frederic Kilner, Arlene B. Miller, Edmund D. Pellegrino, 1996 This book offers a more well founded perspective for considering some of the significant ethical issues in the field of medicine and health care *My Hope Is Built ...: Christian Perspectives on Decisions at the End of Life* F. Walton Avery, 2011-12-02 With medical advances people are living longer than ever before and in many cases with a higher quality of life for much of that time Despite the potential of a long healthy life however many individuals find themselves facing end of life issues they never anticipated And to Christians those decisions may be especially difficult In *My Hope Is Built* Christian Perspectives on Decisions at the End of Life author F Walton Avery examines critical writings about available options for those facing end of life decisions for themselves or for someone they love He looks at Christian responses to vital questions that come at the end of life Avery looks closely at whether the prohibition against suicide or assisted death can be suspended and in the name of Christian faith the suffering individual be permitted to commit suicide or be party to assisted death Regardless of circumstances making end of life decisions are likely to be difficult *My Hope Is Built* Christian Perspectives on Decisions at the End of Life can help one make those decisions in light of their Christian beliefs *Faith Seeking*

Treatise on Christian Banking Morten Bosterud, 2022-08-01 From a moral perspective all banking practice and theory can be seen as value driven Therefore there will be no such thing as value neutral banking activities and the application of Christian ethical and pastoral principles adds insights to the field of banking for all its involved stakeholders This book contributes to the specific scientific discourse of practical theology as this typically appears within the subfields of ethics and pastoral studies Christian ethics and pastoral principles as applied in banking make up a largely neglected area in the wider academic discourse found within practical theology and the research presented in this book contributes new knowledge to the field with particular emphasis on banking practice It is expected that the theories presented herein will be of interest for other scholars not only within the realm of practical theology but also in a cross domain perspective where scholars in a broad field of disciplines may find the research and academic positions of interest Such academic fields would include economics finance business administration sociology history anthropology and perhaps more This expectation may not least be derived from the increasing focus on Corporate Social Responsibility CSR as this has emerged over the last decades within the wider business realm in general whence the world of banking has followed suit Alongside this development an emergence of Islamic banking has been seen which has showed substantial growth and success **A Time To Die** Dr. Wally

Morris, 2014-01-17 Death comes to everyone sooner or later For some death comes quickly without any warning For others death comes more slowly Many people wonder how to make difficult decisions about medical treatment especially when the cost of medical care increases every year Eighty percent of Americans have not clearly and legally expressed their wishes about medical care Families struggle with making decisions about treatment of those they love and pastors struggle with what advice to give families about a decision that will probably be irreversible and have permanent consequences This book focuses on the historical ethical legal medical and Biblical aspects of the often difficult decisions individuals and families must make about the medical treatment of someone who is dying The book reviews preparations people can make before they find themselves in the hospital and gives suggestions for end of life preparations Because the Bible is the final authority in all matters of life and death we have a reliable guide provided by One who already knows the answers and has anticipated our questions **Christian Ethics** Norman L. Geisler, 2010 This update of a classic text evaluates contemporary ethical options and pressing issues of the day from a biblical perspective
