web students must create and graph ten different functions with transformations based on the following parent functions linear quadratic absolute value restrictions on transformations are required students are then directed to color in each section to create a stained glass window effect

**create a picture using functions smart space k 12** - Mar 31 2022

web jan 12 2016 create a picture using functions prompt create a visual picture by graphing a series of functions students should choose some image to recreate and then use various different functions to graph out the picture multiple functions of different types should be utilized within the project and a list of all of the functions used should

**parent functions pictures desmos** - Apr 12 2023

web explore math with our beautiful free online graphing calculator graph functions plot points visualize algebraic equations add sliders animate graphs and more parent functions pictures desmos

*parent function graph project picture book* - Dec 08 2022

web parent function graph project picture parallel curriculum units for mathematics grades 6 12 dec 21 2021 maximize your mathematics curriculum with this powerful guidebook that shows how to create a high quality curriculum and differentiate lessons to benefit all students calculus mar 04 2023

parent function project denton isd - May 13 2023

web parent function project you will be creating a parent function book each parent function will consist of at least 3 pages the first page will consist of a verbal description of the parent function the equation and a graph you will also have domain range x or your own picture highlight the image that shows the graph you are using

**parent function graphs types examples study com** - Feb 27 2022

web may 19 2022 learn what a parent function is discover the types of parent functions learn how to find the parent function from graphs and equations see

**parent functions visual fractions** - Jun 02 2022

web may 6 2022 the parent function of all linear functions is the equation  $y = x$  this means that the rest of the functions that belong in this family are simply the result of the parent function being transformed take a look at the graphs of a family of linear functions with  $y = x$  as the parent function

parent functions transformation activities tpt - Jul 03 2022

web this activity contains a set of 40 puzzle pieces on transformations of parent functions students will cut out the pieces and match equation to its graph transformations and type of function the function types included in this product are absolute

value quadratic square root and cubic

**results for parent graphing project tpt** - Aug 04 2022

web project guidelines and rubric for a project on the trigonometric functions sine cosine tangent students select one of the functions add their own transformations to the parent function graph their function and describe the effect of the transformations
