Planner Minimalist Living:

Minimalist Planner Diana Polska, 2018-02-27 MINIMALIST LIVING is for everyone looking to increase their productivity and success. It's the daily habit of planning your day in the morning and journaling what you've accomplished at the end of each day. It's all about removing the clutter of useless information that does not benefit your work and life. It's about consuming less and producing more. How does your MINIMALIST PLANNER work for planning out your day? You want to start your day by listing only the top 3 tasks you must accomplish during the course of your day. You may also want to list the steps required to accomplish each of your top 3 priorities. Listing out the steps for accomplishing your to-do list is an effective strategy for making it easier for your brain to figure out the most efficient way of accomplishing each task. MINIMALIST JOURNALING is about recording the most relevant information at the end of your day, the most important question being: What will I remember this day for? It's also a good practice to start your day asking this question: What do I plan on remembering this day for?
