A Short Story Walk Through The 20th Century:

Helsinki in Early Twentieth-Century Literature Lieven Ameen, 2014-05-27 Helsinki in Early Twentieth Century Literature analyses experiences of the Finnish capital in prose fiction published in Finnish in the period 1890-1940. It examines the relationships that are formed between Helsinki and fictional characters focusing especially on the way in which urban public space is experienced. Particular attention is given to the description of movement through urban space. The primary material consists of a selection of more than sixty novels, collections of short stories and individual short stories. This study draws on two sets of theoretical frameworks: on the one hand the expanding field of literary studies of the city and on the other hand concepts provided by humanistic and critical geography as well as by urban studies. This study is the first monograph to examine Helsinki in literature written in Finnish. It shows that rich descriptions of urban life have formed an integral part of Finnish literature from the late nineteenth century onward. Around the turn of the twentieth century literary Helsinki was approached from a variety of generic and thematic perspectives which were in close dialogue with international contemporary traditions and age-old images of the city and defined by events typical of Helsinki's own history. Helsinki literature of the 1920s and 1930s further developed the defining traits that took form around the turn of the century, adding a number of new thematic and stylistic nuances. The city experience was increasingly aestheticized and internalized. As the centre of the city became less prominent in literature, the margins of the city and specific socially defined neighbourhoods gained in importance. Many of the central characteristics of how Helsinki is experienced in the literature published during this period remain part of the ongoing discourse on literary Helsinki. Helsinki as a city of leisure and light, inviting dreamy wanderings, the experience of a city divided along the fault lines of gender, class and language, the city as a disorientating and paralyzing cesspit of vice, the city as an *imago mundi*, symbolic of the body politic, the city of everyday and often very mundane experiences, and the city that invites a profound sense of attachment, an environment onto which characters project their innermost sentiments. *A Study Guide for Peter Lagerkvist's "Father and I"* Gale, Cengage Learning, A Study Guide for Peter Lagerkvist's *Father and I* excerpted from Gale's acclaimed *Short Stories for Students*. This concise study guide includes plot summary, character analysis, author biography, study questions, historical context, suggestions for further reading, and much more. For any literature project, trust *Short Stories for Students* for all of your research needs. **The 20th Century Go-N** Frank N. Magill, 2014-03-05 Each volume of the *Dictionary of World Biography* contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history. This is not a who's who. Instead, each entry provides an in-depth essay on the life and career of the individual concerned. Essays commence with a quick reference section that provides basic facts on the individual's life and achievements. The extended biography places the life and works of the individual within an historical context, and the summary at the end of each essay provides a synopsis of the individual's place in history. All entries conclude with a fully annotated bibliography. INTO CHAOS Sans. PRESS Team, Cormack Baldwin, Die
