

Gardening Tips

Water Your Plants

If you have younger plants, water them every day. If they're older, watering them every two to three days should be enough.

Get the Right Tools

Before you start planting, you will need to get the right tools for your garden: a pair of pruning scissors, a spade, a trowel, a garden fork, a rake, and a hose.

Analyze the Soil

Not every plant will be able to grow in your garden. It all depends on the type of soil you have. Analyze whether it's sandy looking or has more of a clay-like texture before choosing the plants.

Plant Your Plants

Don't pull the plant from the pot. Instead, turn it upside down and gently let the plant slide out. Put it in a previously dug hole, and cover the hole with soil.
