A Sociology Of Sociology:

A Sociology of Sociology Robert Winslow Friedrichs, 1970 The structure social scientific revolutions Normal and Revolutionary sociology Sociology the prophetic mode The cloud of neutrality Sociology The priestly mode Recovery of the prophetic mode Science dilemmas of choice The commitments of social research The presumptive faith of science Sociological man as natural man The marxist Analogue The calling of sociology **Constructing a Sociology of the Arts** Vera L. Zolberg, 1990-02-23 At a time when a pile of bricks is displayed in a museum when music is composed for performance underwater and the boundaries between popular and fine art are fluid conventional understandings of art are strained in describing what art is what it includes or excludes whether and how it should be evaluated and what importance should be assigned the arts in society In this book Vera Zolberg examines diverse theoretical approaches to the study of the arts Ranging over humanistic and social scientific views representing a variety of scholarly traditions American and European she then develops a sociological approach that evaluates the institutional economic and political influences on the creation of art while also affirming the importance of the question of artistic quality The author examines the arts in the social contexts in which they are created and appreciated focusing on the ways in which people become artists the institutions in which their careers develop the supports and pressures they face the publics they need to please and the political forces with which they must contend Particular subjects covered include the process by which works are created and re created at different times with changed meanings and for new social uses the role of the audience in the realization of artistic experiences the social consequences of taste preferences the reasons for change in artistic styles and for the coexistence of many art forms and styles *A Sociology of Sociology* Robert W. Friedrichs, 1975 **Contemporary Introduction to Sociology** Jeffrey C. Alexander, Kenneth Thompson, Laura Desfor Edles, 2016-01-08 The first edition of A Contemporary Introduction to Sociology was the first truly new introductory sociology textbook in decades Written by two leading sociologists at the cutting edge of theory and research the text reflected the idioms and interests of contemporary American life and global social issues The second edition continues to invite students to reflect upon their lives within the context of the combustible leap from modern to postmodern life The authors show how culture is central to understanding many world problems as they challenge readers to confront the risks and potentialities of a postmodern era in which the futures of both the physical and social environment seem uncertain As culture rapidly changes in the 21st century the authors have broadened their analysis to cover developments in social media and new data on gender and transgender issues

The Problem of Sociology David Lee, Howard Newby, 1983 A classic introductory text for students Major sociological theories are clearly explained and it is shown how they can illuminate contemporary social problems **Sociology** Anthony Giddens, Simon Griffiths, 2006 This updated edition provides an ideal teaching text for first year university and college courses *Sociology in America* Craig Calhoun, 2007-03 This is an exploration of the growth of American sociology as it

addressed changes and challenges throughout the 20th century covering topics ranging from the discipline's intellectual roots to understanding and misunderstanding of race and gender to the impact of the Depression and the 1960s

What's Wrong with Sociology? Stephen Cole, 2018-04-17 Since the 1950s sociology has experienced a decline in prestige when compared with the other social sciences. In some highly publicized cases some universities have retrenched their sociology departments; others are contemplating either retrenchment or downsizing of their departments. Although there are some practitioners of the discipline who believe that it has never been in better shape, many sociologists have come to believe that there are very serious problems both in the cognitive and social organization of the discipline. This book contains sixteen essays by sociologists who believe that their discipline faces very serious problems which must be overcome if the discipline is to survive and prosper. The contributors were selected to represent diverse views and thus there is substantial disagreement among them over what the problems are that sociology faces and how they may be remedied. In this highly provocative book, readers are likely to find some essays they agree with and others they disagree with, but all the essays present important problems faced by the discipline which must be addressed. Although the authors of the sixteen essays do not agree on what is wrong with the discipline, there are some themes which appear frequently. In his introduction, Cole summarizes and comments on these themes. His introduction centers on the question of whether sociology is entirely socially constructed. Is what we believe to be true about society constrained by empirical evidence, or is it a result of our ideology, power, authority, and other social processes? One theme which appears in many of the essays is that sociology has become too ideological and as a result has lost credibility among university administrators, politicians, and the general public. Many of the essays also stress the view that there are very low levels of consensus in sociology and that it is hard to see evidence of progress. Others criticize the discipline for not dealing with the really important social issues and see much of the work published as being parochial and trivial. Questions are also raised about why the use of causal models has failed to generate solutions to most of the problems the discipline addresses. Some authors believe that the discipline adheres to an overly rational model of human behavior and has failed to keep up with some of the advances introduced by post-modernist theories. This highly readable set of essays should be of interest to all those concerned about the current state of sociology. They will also be useful in introducing graduate students to some of the most important issues currently being debated in the field. Stephen Cole is currently professor of sociology at the State University of New York at Stony Brook and professor of sociology at the University of Queensland, Australia. He is the author of *Making Science Between Nature and Society* and with Jonathan R. Cole, *Social Stratification in Science*.

Vision and Society J. R. Clammer, 2014 The sociology of art is now an established sub-discipline of sociology. But little work has been done to explore the implications not of society on art, but of art on the nature and principles of sociology itself. *Vision and Society* explores the ways in which art is here mainly understood as visual art structures in fundamental ways the constitution of society, the relations between societies, and the ways in which

society and culture should be theorized Building initially on an unfulfilled project by the French sociologist of art Nathalie Heinich to derive a sociology from art this book pushes this idea in unconventional directions Rethinking the relationships between the study of art and the study of sociology and anthropology this book explores how this rethinking might impact sociological theory in general and certain aspects of it in particular especially the study of social movements social change the urban the constitution of space and the ways in which human social relationships are mediated and expressed On the Practice of Sociology Pitirim A. Sorokin, 1998-08-15 Pitirim Sorokin 1889 1968 rose from a peasant childhood in Russia to become one of the most insightful figures in the history of sociology At the Harvard Research Center for Creative Altruism he developed a blueprint for social reconstruction This collection includes essays that range from his early Russian years to his final works in the 60s
