### *Chapter 1*

### **Life and Career of Edmund Burke (1729-1797)**

Burke was born at Dublin in Ireland in 1729, then part of the British Empire. His father was a prosperous attorney. After an early education at home, he became a boarder at the school run by Abraham Shackleton at Balboree in County Kildare. Burke received his University education at Trinity College, Dublin. At Trinity he founded a debating society, where he developed his oratorical technique and debating skills. Thence he proceeded to the Middle Temple at London, in order to qualify for the Bar. Legal practice was less attractive to him than the broader perspective which had captured his attention at university. It was first as a writer, and then as a public figure that he made his career. Burke married Miss Nugent in 1756 and had a son by 1758.

Burke found that there was more money in narrative works and in practical affairs than in philosophy. Burke's earlier writings include 'A Philosophical Enquiry into the Origin of our Ideas of the Sublime and Beautiful' (1757); and 'A Vindication of Natural Society' (1756). Thereafter he was co-author of 'An Account of the European Settlements' (1757) and began an 'Abridgment of English History' (c. 1757-62). From 1758 until 1765, he was the principal 'conductor' of the new 'Annual Register'. In 1765, Burke became private secretary to the Marquis Rockingham (who had just become Lord of the Treasury) and was elected to the British House of Commons for the borough of Wendover, in the same year. He remained there with a brief intermission in the autumn of 1780. He became an important part of the opposition by the 1770s for nearly 29 years, retiring in the summer of 1794. Burke, who was always a prominent figure there and sometimes an effective leader, gave a great many parliamentary speeches. He published versions of some of these, notably on American Taxation (1774); Conciliation with America (1775) and Fox's East India Bill (1783).

### **Burke as a statesman**

Burke's activity as a Parliamentarian and political writer embraced a wide range of many concerns. Prominent amongst these were the problems of British rule in the Far East, in North America, India and Ireland. His name, however, has
