Digital China: Metaverses For Business Ashley Dudarenok,2023-03-20 While the hype surrounding the metaverse has waned its importance from a tech perspective hasn't This book will help all those who have wondered what a metaverse is what it's for how much it's worth which companies are creating it which countries are ahead of the game and how businesses are using metaverses and Web3 This book is for brands that want to understand the next iteration of the internet how to use it now and in the future to connect with customers and how to future proof your business There are different perceptions of and approaches to the metaverse and Web3 in different countries This book helps you to understand those differences and the impact they may have on your company

QUOTES FROM THE BOOK The metaverse is the next iteration of the internet we have been building for the last 40 years but in a 3D realm vs the text picture and video web we have today When it arrives in the next 5 10 years it will encompass all facets of our lives from school to work to play and everything in between And from now to then there will be many rocky roads as the world and China figure out how to actually build such a solution and all the rules needed to properly operate it Alvin Wang Graylin China President Global VP of Corporate Development at HTC Some people believe there should be one metaverse where many virtual worlds exist inside that one mega metaverse But this is the most idealized version of how society or the internet operates Judging by what tech companies are doing at this early stage it

s clear that they want to keep their walled gardens up for as long as they can Nina Xiang Author of Parallel Metaverses New revenue streams and business models present a whole new level of possibility for brands to reach their customers and fans It s not just about monetary conversions It s another touchpoint and becomes a layer of experiential reimaged and immersive experience to further enhance a brand s story Co creation and community activation will play a significant role in delivering to the community Olivia Lee Founder of Livvium Web3 Strategist and Digital Fashion Collector *Towards Third Generation Learning and Teaching* Murat A. Yülek,J.G. Wissema,2022-10-04 Learning and hence education are in turmoil Traditional learning techniques are challenged by powerful new approaches and insights while students and employers alike put new demands on education The new insights come from quite different areas of science This book aims to provide a future oriented picture of the various developments culminating in an educated speculation on learning and education in the near future It has been written for leaders in education scholars as well as practitioners and policymakers Learning will be a central issue in the decades to come In the words of the recently deceased cultural anthropologist Catherine Bateson We are not what we know but what we are willing to learn **Tokens** Rachel O'Dwyer,2025-09-23 Longlisted for the Financial Times Schroders Business Book of the Year Award 2023 BEST BOOK OF THE YEAR GQ Los Angeles Times Wired The essential guide to this new landscape of NFTs Web3 Crypto and DAOs and a warning of the political consequences of what happens when platform capitalism comes for the money in your pocket Wherever you look money is being re placed by tokens Digital platforms are issuing new kinds of money like things phone credit shares gift vouchers game tokens customer data the list goes on But what does it mean when online platforms become the new banks What new types of control and discrimination emerge when money is tied to specific apps or actions politics or identities Tokens opens up this new and expanding world Exploring the history of extra monetary economies Rachel O Dwyer shows that private and grassroots tokens have always haunted the real economy But as the large tech platforms issue new money like instruments tokens are suddenly everywhere Amazon s Turk workers are getting paid in gift cards Online streamers trade in wishlists Foreign remittances are sent via phone credit Bitcoin gift cards NFTs customer data and game tokens are the new money in an evolving economy It is a development challenging the balance of power between online empires and the state Tokens may offer a flexible even subversive route to compensation But for the platforms them selves they can be a means of amassing frightening new powers An essential read for anyone concerned with digital money inequality and the future of the economy
