Altman and After Peter F. Parshall, 2012-06-21 In American cinema films with multiple plots can be traced back to

Grand Hotel in 1932 but the form was used only sporadically in subsequent decades. However filmmakers of the 1970s and 80s notably Robert Altman and Woody Allen repeatedly employed complex narratives to weave sprawling stories in their films. Later filmmakers such as Quentin Tarantino, Paul Thomas Anderson, Wong Kar Wai, Steven Soderbergh and Paul Haggis embraced multiple plotlines, a device that eventually achieved mainstream respectability in such Oscar winners as *Traffic* and *Crash*. In the past two decades more than 200 films utilizing some variation of this format have appeared worldwide. In *Altman and After: Multiple Narratives in Film*, Peter Parshall carefully examines films that feature various plotlines. Parshall asserts that although this form may lose some of the close psychological identification and forward drive of linear narratives, such films gain a corresponding strength by developing thematic relationships in the various story lines. In each of these chapters, Parshall examines a different example of the multi-plot form, such as network narrative and the multiple draft narrative, demonstrating that the structure of each is central to their artistry. He also argues that these devices open up a variety of creative vistas, a strength that appeals to directors and audiences alike. Films studied in this book include *Nashville*, *Pulp Fiction*, *Amores Perros*, *Code Unknown*, *The Edge of Heaven*, *Virgin Stripped Bare by Her Bachelors*, *The Double Life of Veronique*, and *Run Lola Run*. A long overdue examination of this unique cinematic form, *Altman and After* will appeal to scholars, students, and fans eager to learn more about complex narrative films.

Film Study Frank Manchel, 1990. The four volumes of *Film Study* include a fresh approach to each of the basic categories in the original edition. Volume one examines the film as film; volume two focuses on the thematic approach to film; volume three draws on the history of film; and volume four contains extensive appendices listing film distributors, sources, and historical information, as well as an index of authors, titles, and film personalities.

Robert Altman Frank Caso, 2015-10-15. Known as an iconoclast and maverick film director, Robert Altman has consistently pushed against the boundaries of genre. From refashioning film noir in *The Long Goodbye*, the western in *McCabe Mrs Miller*, the psychological drama in *Images*, science fiction in *Quintet*, and the romantic comedy in *A Perfect Couple*, he has always tested the limits of what film can and should do. In this book, Frank Caso examines the development of Altman's artistic method from his earliest days in industrial film to his work in television and feature films. Altman is one of those directors whose films audiences can easily recognize, but what exactly are the distinctive elements that have become his signature? Caso identifies more than twenty such elements in Altman's style, tracing some such as his use of free-hand cameras and engagement with Christian imagery to the beginning of his career. Caso also examines Altman's unsettling mix of offbeat comedic tone with a predominance of violence, murder, and death, showing how their counterpointing effects rendered his films at once naturalistic and otherworldly. Exploring these and other aspects of the Altmanesque style, Caso maps the innovations that have made Altman a master filmmaker. Enriched with illustration throughout, *Robert Altman* will appeal to fans of this distinctive American auteur or anyone interested in ground-breaking cinema.
