Americas City Halls:

America's City Halls William L. Lebovich, Historic American Buildings Survey, 1984 This book presents 114 city halls in forty states that together illustrate the development and diversity of two centuries of American architecture *City Halls and Civic Materialism* Swati Chattopadhyay, Jeremy White, 2014-03-14 The town hall or city hall as a place of local governance is historically related to the founding of cities in medieval Europe As the space of representative civic authority it aimed to set the terms of public space and engagement with the citizenry In subsequent centuries as the idea and built form travelled beyond Europe to become an established institution across the globe the parameters of civic representation changed and the town hall was forced to negotiate new notions of urbanism and public space *City Halls and Civic Materialism Towards a Global History of Urban Public Space* utilizes the town hall in its global historical incarnations as bases to probe these changing ideas of urban public space The essays in this volume provide an analysis of the architecture iconography and spatial relations that constitute the town hall to explore its historical ability to accommodate the public in different political and social contexts in Europe Asia Australia Africa and the Americas as the relation between citizens and civic authority had to be revisited with the universal franchise under fascism after the devastation of the world wars decolonization and most recently with the neo liberal restructuring of cities As a global phenomenon the town hall challenges the idea that nationalism imperialism democracy the idea of citizenship concepts that frame the relation between the individual and the body politic travel the globe in modular forms or in predictable trajectories from the West to East North to South Collectively the essays argue that if the town hall has historically been connected with the articulation of bourgeois civil society then the town hall as a global spatial type architectural space urban monument and space of governance holds a mirror to the promise and limits of civil society Early Modern Europe Philip Benedict, Myron P. Gutmann, 2005 Fifty years after the beginning of the debate about the general crisis of the seventeenth century and thirty years after Theodore K Rabb's reformulation of it as the European struggle for stability this volume returns to the fundamental questions raised by the long running discussion What continent wide patterns of change can be discerned in European history across the centuries from the Renaissance to the French Revolution What were the causes of the revolts that rocked so many countries between 1640 and 1660 Did fundamental changes occur in the relationship between politics and religion Politics and military technology Politics and the structures of intellectual authority **Running City Hall** David L. Martin, 1990 Examines political realities in municipal management *Running City Hall* studies the history and growth of American cities their legal status relationships with other governments city politics and financing From the impact of AIDS to performance zoning the second edition covers such vital topics as electoral systems administration municipal unionism public safety social services and planning Balanced and thorough this readable and timely work will be welcomed by practitioners students and everyone who seeks to understand the American city **Encyclopedia of Contemporary American Culture** Robert Gregg, Gary W.

McDonogh, Cindy H. Wong, 2005-11-10 As a meeting point for world cultures the USA is characterized by its breadth and diversity Acknowledging that diversity is the fundamental feature of American culture this volume is organized around a keen awareness of race gender class and space and with over 1 200 alphabetically arranged entries spanning the American century from the end of World War II to the present day the Encyclopedia provides a one stop source for insightful and stimulating coverage of all aspects of that culture Entries range from short definitions to longer overview essays and with full cross referencing extensive indexing and a thematic contents list this volume provides an essential cultural context for both teachers and students of American studies as well as providing fascinating insights into American culture for the general reader The suggestions for further reading which follows most entries are also invaluable guides to more specialized sources

Lizabeth Cohen, 2019-10-01 An incisive treatment of the entire urban planning world in America in the last half of the 20th century Alan Ehrenhalt The New York Times In twenty first century America some cities are flourishing and others are struggling but they all must contend with deteriorating infrastructure economic inequality and unaffordable housing Cities have limited tools to address these problems and many must rely on the private market to support the public good It wasn't always this way For almost three decades after World War II even as national policies promoted suburban sprawl the federal government underwrote renewal efforts for cities that had suffered during the Great Depression and the war and were now bleeding residents into the suburbs In *Saving America's Cities* Lizabeth Cohen follows the career of Edward J. Logue A Yale trained lawyer rival of Robert Moses and sometime critic of Jane Jacobs Logue saw renewing cities as an extension of the liberal New Deal He worked to revive a declining New Haven became the architect of the New Boston of the 1960s and later led New York State's Urban Development Corporation which built entire new towns including Roosevelt Island in New York City Logue's era of urban renewal has a complicated legacy Neighborhoods were demolished and residents dislocated but there were also genuine successes and progressive goals *Saving America's Cities* is a dramatic story of heartbreak and destruction but also of human idealism and resourcefulness opening up possibilities for our own time Engrossing The Wall Street Journal Cohen sketches Logue vividly illuminating his forcefulness his passion his masculine confidence The Nation A complex portrait The Boston Globe An essential read Library Journal starred review **The American City** Arthur Hastings Grant, Harold S.
