Subcommittee on Energy, 2013 **Voyages of the Self : Pairs, Parallels, and Patterns in American Art and Literature** Barbara Novak Helen Goodhart Altschul Professor of Art History Barnard College and Columbia University, 2007-01-01 Barbara Novak is one of America's premier art historians the author of the seminal books *American Painting of the Nineteenth Century* and *Nature and Culture* the latter of which was named one of the Ten Best Books of the Year by The New York Times and was nominated for a National Book Critics Circle Award Now with *Voyages of the Self* this esteemed critic completes the trilogy begun with the two earlier works offering once again an exhilarating exploration of American art and culture In this book Novak explores several inspired pairings of key writers and painters drawing insightful parallels between such masters as John Singleton Copley and Jonathan Edwards Winslow Homer and William James Frederic Edwin Church and Walt Whitman and Jackson Pollock and Charles Olson Through these and other groupings Novak tracks the varied meanings of the self in America in which the most salient characteristics of each artist or writer is shown to draw from and in turn influence the larger map of American life Two major threads weaving through the book are the American preoccupation with the object and our continuing return to pragmatism Novak notes for instance how Copley's art mirrors the puritan denial of self found in Jonathan Edwards and how as colonial scientists they share an interest in sensation and observation She sees Winslow Homer and William James as practitioners of a pragmatic self grounded in an immediate experience that looks for concrete results Through such fruitful comparisons whether between Copley and Edwards or Lane and Emerson or Ryder and Dickinson Novak sheds unmatched light on our nation's artistic heritage Wonderfully illustrated with dozens of black and white pictures and sixteen full color plates here is a stunning work that yields a wealth of insight into American art and culture and concludes Novak's landmark trilogy **Making North America** James A. Thompson, 2014-02-05 Much has been written about the trilateral relationship between Canada the United States and Mexico and the free trade agreements that this relationship has spawned In *Making North America* James Thompson uses the Canada US Free Trade Agreement of 1988 and the North American Free Trade Agreement of 1994 to demonstrate that there has been an often unrecognized impulse behind the process of North American integration national security Featuring interviews with key decision makers from all three countries including Brian Mulroney George H W Bush and Carlos Salinas *Making North America* is a rigorous analysis of the role national security has played in North American integration Furthermore Thompson's evidence suggests that the processes at work in North America are part of a global phenomenon where regions are progressively coalescing into larger scale political entities **America's History** James A. America'S Foreign Policy Ben A. Watford,2012-03-05 In theory this treatise should include the more than 115 countries that the United States has military presence and the Central Intelligence Agency has operatives However that would be overstating the intention of the treatise What is endeavored here is an attempt to give the American people a short view of the involvement of America the National Security Agency and the Central Intelligence Agency in world affairs It is not the intent of this treatise to be a criticism of my homeland the United States of America Indeed in most countries on the globe I would be arrested jailed tortured and put to death for even attempting such a project The very fact that I can write this book and still be alive is a testament to Americas unique form of capitalism
