Walker Evans Judith Keller, 1995-11-02 Walker Evans is widely recognized as one of the greatest American photographers of the twentieth century and the J Paul Getty Museum owns one of the most comprehensive collections of his work including more of his vintage prints than any other museum in the world This lavishly illustrated volume brings together for the first time all of the Museum's Walker Evans holdings Included here are familiar images such as Evans's photographs of tenant farmers and their families made in the 1930s and later published in *Let Us Now Praise Famous Men* and images that are much less familiar such as the photographs Evans made in the 1940s of the winter quarters of the Ringling Brothers circus or his very late Polaroids made in the 1970s In addition many previously unpublished Evans photographs and variant croppings of classic images appear here for the first time Author Judith Keller has written a lively informative text that places these photographs in the larger context of Evans's life and career and the culture especially the popular culture of the time In so doing she has produced an indispensable volume for anyone interested in the history of photography or American culture in the twentieth century Also included is the most comprehensive bibliography on Walker Evans published to date

Kafka and Photography Carolin Duttlinger, 2007-12-06 Throughout his life Franz Kafka was fascinated by photography a medium which for him came to encapsulate both the attractions and the pitfalls of modern life Kafka's personal engagement with the medium as a keen viewer and collector of photographs as well as an amateur photographer is reflected in his writings which explore photography from a variety of different perspectives By far the most frequently and extensively discussed visual medium in Kafka's texts photography is paradigmatic of his relationship to visibility more generally This study not only explores photography's recurrence as a theme within his texts but it is also the first to take systematic account of Kafka's use of photographs as literary source material *Kafka and Photography* presents one of the most important modern writers from an entirely new perspective it sheds new light on familiar works and uncovers unexplored aspects of Kafka's engagement with his time and context Providing a chronological account of key prose works as well as the personal writings

this study is accessible to students and lay readers It will be of interest not only to literary scholars but also to those working in photography media and cultural studies Its detailed textual analyses are set against a richly documented historical context which illustrates Kafka s interest in contemporary culture through a range of visual material taken from public as well as private sources some of which has only recently become available As this book demonstrates photography had a profound impact on Kafka s literary imagination and as such helps to explain the mesmerizing intensity of enigmatic visual detail which is a hallmark of his narratives *International Photography Index* ,1980

The Originality Standard of Photographic Works in EU Copyright Law Marián Jankovič,2025-01-24 Originality Standard of Photographic Works in EU Copyright Law By Mari n Jankovic Marian Jankovic The omnipresence of photographic products in almost everyone s lives is considered natural almost unavoidable If one makes the connection of the said omnipresence with the constant development of new technologies the increase of interactions with possible legal consequences involving photographic products as a potential subject matter appropriable by copyright might be expected to be inevitable Such outlined situation brings the necessity to sufficiently legally define and clarify under which circumstances in other words upon the fulfilment of what conditions and criteria can a photographic product be considered the subject matter of copyright This shall be done in order to assure the legal certainty of both the photographers as well as the potential users of their photographic products The medium of photography especially its production process necessitating involvement of technological equipment is not as easily graspable and comprehensible as other traditional works of art This ambiguity has been also carried over into the legal area which resulted in various differentiating treatments of photographic products within the national copyright frameworks of Member States of the European Union Chosen for the highlighting of the already mentioned various differentiating treatments and their particularities copyright frameworks of Germany France Czech and Slovak republics have been chosen as basis for the conducted research The European Union has tried to remedy the outlined state of affairs by way of the so called harmonisation As part of its first phase a legislative framework in a form of Directives has been created Within the said framework a condition for appropriability of photographic products by copyright has been formulated the so called originality standard of author s own intellectual creation As part of its second phase the said originality standard formulated via the previously created legislative framework has been applied in practice and enhanced by the Court of Justice of the European Union with the addition of a personal touch As a result of both phases combined a solely applicable requirement for appropriation of photographic products by copyright within the copyright framework of the European Union has been formulated The figurative trigger for the initiation of the said second phase a legal dispute revolving around the use of an official portrait photographic product depicting a pupil without the photographer s consent has been chosen by the Court of Justice of the European Union Whether the outlined state of affairs consisting of various national differentiating treatments of photographic products has been remedied indeed will be demonstrated on the assessment of the current position of

photographic products after the completion of both harmonisation phases within the four selected national copyright frameworks In particular the applicability of the harmonised originality standard as well as the applicability of the said national particularities will be assessed **Fritz Henle** Roy Flukinger, Fritz Henle, 2009-02-01 Beyond his mastery of the craft however Henle was driven by a lifelong urge to show people beauty I am obsessed he said by showing them beauty

History of Photography Laurent Roosens, Luc Salu, 1989-01-01 The fourth volume in a history of photography this is a bibliography of books on the subject **The Image and Influence of America in German Poetry Since 1945** Gregory Divers, 2002 Examines the image of the US in German poetry and the reception and influence of American poetry in Germany since 1945 This book focuses on the image of the US in German poetry and the reception of American poetry in Germany since 1945 Gregory Divers examines poems by major figures in 20th century German literature Benn Brecht Bachmann Jandl and Grass among others and by other poets who shaped America's postwar image in Germany Divers traces America's postwar status in Germany from the prisoner of war poems of G nter Eich to the pop poetry of Rolf Dieter Brinkmann and Peter Handke Continuing he finds that although the 1960s protest poems of Erich Fried and others reflect the tarnishing of America's image due to Vietnam 1970s travel poems by Brinkmann Kunert and Kunze confirm the resiliency of that image Finally Divers looks at poems by Hartung Delius and Kling to illustrate the new heights reached by America's image within German literary circles during the 1980s and the status of America in Germany after reunification In charting these developments in postwar German poetry Divers also shows how American influences are crucial to its understanding not only surveying postwar German reception of Whitman Eliot Pound and William Carlos Williams but also examining the influence of such figures as Charles Olson and Robert Creeley Allen Ginsberg and the Beats Frank O Hara and John Ashbery and Robert Lowell and Sylvia Plath Gregory Divers is Assistant Professor of German at Saint Louis University *No Better Friend?* Peter Sparding, 2025-03 The German American relationship is the decisive transatlantic dynamic of our time Long seen as one of the most stable connections between Europe and America thanks to its well defined Cold War structure and hierarchy relations between Washington and Berlin have become much more volatile in the twenty first century and are playing an increasingly pivotal role in determining the degree to which Europe and the United States will be able to shape a rapidly changing world order Stabilizing this uniquely complicated relationship will be no easy feat At times more closely aligned politically and more intertwined economically than any other transatlantic pair since the end of the Cold War these republics have seen their relations characterized by frequent diplomatic cultural and philosophical clashes and misunderstandings and a trail of disappointed expectations Peter Sparding examines the long history between the two countries and their peoples the narratives and perceptions harbored by each nation concerning the other and the evolution of diplomatic economic and security ties Appraising the complicated interplay between Germany and the United States vis a vis a rising China and the domestic challenges facing both countries his book offers an outlook on how this all important relationship might function
