American Genre Painting Elizabeth Johns, 1991-01-01

American genre painting flourished in the thirty years before the Civil War a period of rapid social change that followed the election of President Andrew Jackson It has long been assumed that these paintings of farmers western boatmen and trappers blacks both slave and free middle class women urban urchins and other everyday folk served as records of an innocent age reflecting a Jacksonian optimism and faith in the common man In this enlightening book Elizabeth Johns presents a different interpretation arguing that genre paintings had a social function that related in a more significant and less idealistic way to the political and cultural life of the time Analyzing works by William Sidney Mount George Caleb Bingham David Gilmore Blythe Lilly Martin Spencer and others Johns reveals the humor and cynicism in the paintings and places them in the context of stories about the American character that appeared in sources ranging from almanacs and newspapers to joke books and political caricature She compares the productions of American painters with those of earlier Dutch English and French genre artists showing the distinctive interests of American viewers Arguing that art is socially constructed to meet the interests of its patrons and viewers she demonstrates that the audience for American genre paintings consisted of New Yorkers with a highly developed ambition for political and social leadership who enjoyed setting up citizens of the new democracy as targets of satire or condescension to satisfy their need for superiority It was this network of social hierarchies and prejudices and not a blissful celebration of American democracy that informed the look and the richly ambiguous content of genre painting

Looking Close and Seeing Far: Samuel Seymour, Titian Ramsay Peale, and the Art of the Long Expedition, 1818-1823, *Anglo-American Law Collections* Mortimer D. Schwartz, Dan F. Henke, 1970

True Grit Stephanie Schrader, James Glisson, Alexander Nemerov, 2019-10-22 An engaging look at early twentieth century American printmaking which frequently focused on the crowded chaotic and gritty modern city In the first half of the twentieth century a group of American artists influenced by the painter and teacher Robert Henri aimed to reject

the pretenses of academic fine art and polite society Embracing the democratic inclusiveness of the Progressive movement these artists turned to making prints which were relatively inexpensive to produce and easy to distribute For their subject matter the artists mined the bustling activity and stark realities of the urban centers in which they lived and worked Their prints feature sublime towering skyscrapers and stifling city streets jazzy dance halls and bleak tenement interiors intimate and anonymous everyday scenes that addressed modern life in America True Grit examines a rich selection of prints by well known figures like George Bellows Edward Hopper Joseph Pennell and John Sloan as well as lesser known artists such as Ida Abelman Peggy Bacon Miguel Covarrubias and Mabel Dwight Written by three scholars of printmaking and American art the essays present nuanced discussions of gender class literature and politics contextualizing the prints in the rapidly changing milieu of the first decades of twentieth century America **Minnesota Prints and Printmakers, 1900-1945** Robert Crump, 2009 A definitive survey of Minnesota's vibrant printmaking scene in the first half of the twentieth century that features almost two hundred artists **The Print Collector's Newsletter** , 1986
