Osgood, 2025-06-03 This thought provoking textbook explores how special education became distinct from general education over time through changes in teacher education research funding teacher licensure school organization and student stratification Each chapter offers key ideas and discussion questions that invite readers to examine the construct of disability and how it came to merit an established distinct position within education in light of our improving understanding of the learning needs of each individual child in the classroom and community The book challenges current models of segregated placement curriculum and behavior management and poses alternatives that recognize the tremendous rich diversity found in classrooms acknowledging overlapping opportunities to address the needs of students in a more comprehensive integrated way Challenging the Singularity of Special Education is key reading for graduate and undergraduate students in issues or special topics oriented courses in teacher preparation or educational leadership programs The book is also a useful resource for designing course curricula **Leadership Strategies for Teachers** Eunice M. Young, Peter Bittel, 2012-11-02 Superintendents central office administrators principals school board members and students in the field of education will find this book to be useful in guiding their own professional development and practice The authors cover a variety of useful topics in special education ranging from finances how to systematically monitor the assignment of paraprofessionals and transportation to legal considerations and methods of promoting parent engagement Co editors Bittel and Young invited seasoned educators and professionals to share their expertise in a wide range of important subjects that collectively promote an understanding of how to transform special education programs and service delivery in public school settings Chapter topics were intentionally selected to address the common special education program challenges facing school superintendents and the focus throughout this book was on providing practical suggestions to improve actual practice As such current and aspiring educational leaders and policy makers who are interested in learning more about how to successfully tackle some of the more complex challenges in special education will find this book to be an invaluable resource **Progress in Education** R. Nata, 2007 This series presents substantial results from around the globe in selected areas of educational research The field of education is consistently on

the top of priority lists of every country in the world yet few educators are aware of the progress elsewhere Many techniques programs and methods are directly applicable across borders This series attempts to shed light on successes wherever they may occur in the hope that many wheels need not be reinvented again and again *A Universal Template for Research Position and Life Experience Papers* Dale Benjamin Drakeford,2005 The self descriptive title *A Universal Template For Research Position and Life Experience Papers* implies that there is a position that writers take in even the simplest of essays As such Template provides an opportunity to accomplish two tasks at once consider the definitive differences between Research Position and Experience papers and explore the issues that impound and empower contemporary urban education Dale Benjamin Drakeford provides an interactive workshop to guide student writing on any social science subject Agreeing with many scholars that public and free pedagogy is indispensable the author also argues that there is no wrong or right in scholastic debate only correct presentation of objective thoughts or non objective attitudes This the author says is what is sometimes forgotten in the heat of getting ideas on paper Hence Template provides structure for planning papers and in process cues for staying on task to complete them with proper formality **Education in America: Perspectives,**
