Richter, 2017-05-01 Reading the Eighteenth Century Novel is a lively exploration of the evolution of the English novel from 1688 1815 A range of major works and authors are discussed along with important developments in the genre and the impact of novels on society at the time The text begins with a discussion of the rise of the novel in the long eighteenth century and various theories about the economic social and ideological changes that caused it Subsequent chapters examine ten particular novels from

Oroonoko and Moll Flanders to Tom Jones and Emma using each one to introduce and discuss different rhetorical theories of narrative The way in which books developed and changed during this period breaking new ground and influencing later developments is also discussed along with key themes such as the representation of gender class and nationality The final chapter explores how this literary form became a force for social and ideological change by the end of the period Written by a highly experienced scholar of English literature this engaging textbook guides readers through the intricacies of a transformational period for the novel

**Faulkner and the Politics of Reading** Karl F. Zender, 2023-10-18 With this study Karl F Zender offers fresh readings of individual novels themes and motifs while also assessing the impact of recent politicized interpretations on our understanding of Faulkner's achievement Sympathetically acknowledging the need to decenter the canon Zender's searching interrogation of current theory clears a breathing space for Faulkner and his readers between the fustier remnants of New Criticism and the excesses of post structuralism Each chapter opens with a balanced presentation of the genuine gifts contemporary theory has bestowed on our comprehension of a particular novel or problem in Faulkner criticism and then proceeds with a groundbreaking reading The Politics of Incest challenges older psychoanalytic interpretations of Faulkner's use of the incest motif and Faulkner's Privacy defends the novelist's difficulty or reticence as an aesthetic resistance against the rude candor of deracialized and depersonalized culture Subsequent chapters take up the volatile issues of Faulkner's representations of women and of African Americans and a close reading of the classic Barn Burning critiques the current tendency to blur the concepts of patriarchy and paternity The elegiac final chapter Where is Yoknapatawpha County draws on a comparison with John Updike's Pennsylvania fiction and a reading of Joan Williams's The Wintering to explore Faulkner's disinclination to represent the quotidian realities of southern life in his later novels Zender shows that Faulkner's stylistic withdrawal attempts to transform into beauty his alienation from the postwar world and his fear of aging That Faulkner and the Politics of Reading itself recovers and gives new luster to Faulkner's beauty will surely please in the author's words those readers for whom literature is less a mechanism of social change than a source of pleasure The originality of its critical vision will inspire Faulkner scholars students of American literature and general readers
