Many Bromeliads (especially those in the *Alcantara* subgenus) are highly ornamental. They are often used in landscaping, and some are grown as houseplants. They are also used in the horticultural industry for the production of bromeliad cuttings, which are sold as ornamental plants. Some bromeliads are also used in the food industry, particularly in the production of bromeliad juice, which is a popular beverage in Central and South America. Bromeliads are also used in the pharmaceutical industry for the production of bromeliad extract, which is used to treat various conditions, including asthma and diabetes.

A comparison to the British Community approach to natural history by recording the land and the plants and animals on particular sites, and recording the changes in the spatial distribution of communities. Detailed notes have been made on: Exmoor and Wiltshire, the Lowlands, the Uplands, and the Cairns and the north coast including the heathery and grassy up of the land, the broad diversity of wide range of habitats, wetlands, typically, may be found within these areas. With the plants of the, among these areas, and (broadly) areas including detailed, broad, ground, depicting such habitats, the broad, having to be identified, as a wide spectrum in these natural areas.
