

A Fall of Moondust

ARTHUR C. CLARKE

A Fall Of Moondust

Eric S. Rabkin

A Fall Of Moondust:

A Fall of Moondust Arthur Charles Clarke, 1961 A story of the future about a specially designed air vessel that sinks with its human cargo into a sea of dust in one of the craters of the moon *A Fall of Moondust* Arthur C. Clarke, 2012-11-30 A superbly ingenious classic of space survival from the author of 2001 A Space Odyssey one of science fiction's most influential grandmasters Daily Express Expanding the Moon's population hinges on building a thriving tourist industry But when a prototype tourist craft called the Selene encounters a moonquake the ship plummets under a vast body of liquid fine moondust called the Sea of Thirst While time runs out for the passengers and crew rescuers find their resources stretched to the limit by the unpredictable conditions of the lunar environment Nominated for the Hugo Award in 1963 this brilliantly imagined story of human ingenuity and survival is a tour de force of psychological suspense and sustained dramatic tension sure to appeal to fans of Andy Weir's The Martian The best book yet about man's most dramatic journey the most exciting science fiction novel for years Evening Standard Expertly told and cruelly exciting to the end The Sunday Times Extremely good with some superbly ingenious and exciting new twists Daily Express **A Fall of Moondust** Arthur Charles Clarke, 1967 This story is about a ship that sank deep in the dust of one of the seas of the Moon and how passengers and crew were rescued just in time **A Fall of Moondust by Arthur C. Clarke** British Columbia Teachers' Federation, British Columbia Teachers' Federation. Lesson Aids Service, 197? **A fall of moondust** Arthur C. Clarke, 1971 *Modernity and Contemporaneity* Evangelos D. Protopapadakis, Georgios Arabatzis, 2022-07-28 Modernity and Contemporaneity is the 3rd volume in the Hellenic Serbian Philosophical Dialogue Series a project that was initiated as an emphatic token of the will and commitment to establish permanent and fruitful collaboration between two strongly bonded Departments of Philosophy this of the National and Kapodistrian University of Athens and that of the University of Novi Sad respectively This collaboration was founded from the very beginning upon friendship mutual respect and strong engagement as well as upon our firm resolution to establish a solid continuity in the editing project The publication of this volume allows us to entertain feelings of contentment and confidence that this objective of the project has been accomplished *Arthur C. Clarke* Gary Westfahl, 2018-06-14 Already renowned for his science fiction and scientific nonfiction Arthur C Clarke became the world's most famous science fiction writer after the success of 2001 A Space Odyssey He then produced novels like Rendezvous with Rama and The Fountains of Paradise that many regard as his finest works Gary Westfahl closely examines Clarke's remarkable career ranging from his forgotten juvenilia to the passages he completed for a final novel The Last Theorem As Westfahl explains Clarke's science fiction offered original perspectives on subjects like new inventions space travel humanity's destiny alien encounters the undersea world and religion While not inclined to mysticism Clarke necessarily employed mystical language to describe the fantastic achievements of advanced aliens and future humans Westfahl also contradicts the common perception that Clarke's characters were bland and underdeveloped arguing that these reticent solitary individuals

who avoid conventional relationships represent his most significant prediction of the future as they embody the increasingly common lifestyle of people in the twenty first century

The Telescopic Tourist's Guide to the Moon Andrew

May,2017-06-29 Whether you re interested in visiting Apollo landing sites or the locations of classic sci fi movies this is the tourist guide for you This tourist guide has a twist it is a guide to a whole different world which you can visit from the comfort of your backyard with the aid of nothing more sophisticated than an inexpensive telescope It tells you the best times to view the Moon the most exciting sights to look out for and the best equipment to use allowing you to snap stunning photographs as well as view the sights with your own eyes Have you ever been inspired by stunning images from the Hubble telescope or the magic of sci fi special effects only to look through a small backyard telescope at the disappointing white dot of a planet or faint blur of a galaxy Yet the Moon is different Seen through even a relatively cheap scope it springs into life like a real place with mountains and valleys and rugged craters With a bit of imagination you can even picture yourself as a sightseeing visitor there which in a sense you are
