A Contemporary Social Spirituality Francis X. Meehan, *The Modern Social Religion* Horace Holley, 1913 **Commodified Health Care and Lay Catholic Social Spirituality** Vivencio Ballano, 2025-07-01 This book establishes a lay social spirituality for health care practitioners that pursues the Catholic Church's social teachings on the preferential option for the poor structural sin and health care reform to address today's commodification of the health care system where maximizing profit and patient's capacity to pay become the primary consideration Applying a sociotheological approach that combines the perspectives of modern sociology Catholic social doctrines and Pope Francis's inductive synodal theology as well as drawing from secondary literature media reports and church documents it argues for the necessity of a holistic interdisciplinary and synodal lay Catholic social spirituality that is informed by Pope Francis's synodality Presenting sociological research for health care practitioners to uphold options for the poor in public health it envisions a lay spirituality that participates in civil society's health care reform agenda at the macro level and practices Christian and Ignatian discernment at the micro level as its main behavioral components This book appeals to Christian health care actors entrepreneurs and spiritual directors as well as scholars and students in sociology religion moral theology bioethics and spirituality **Augustine and Contemporary Social Issues** Paul L. Allen, 2022-07-27 This book focuses on applying the thought of Saint Augustine to address a number of persistent 21st century socio political issues Drawing together Augustinian ideas such as concupiscence virtue vice habit and sin through social and textual

analysis it provides fresh Augustinian perspectives on new yet somehow familiar quandaries The volume addresses the themes of fallenness politics race and desire It includes contributions from theology philosophy and political science Each chapter examines Augustine s perspective for deepening our understanding of human nature and demonstrates the contemporary relevance of his thought Spiritual Diversity in Social Work Practice Edward R. Canda, Leola Dyrud Furman, 2010 Weaving together interdisciplinary theory and research as well as the results from a national survey of practitioners the authors describe a spiritually oriented model for practice that places clients challenges and goals within the context of their deepest meanings and highest aspirations Using richly detailed case examples and thought provoking activities this highly accessible text illustrates the professional values and ethical principles that guide spiritually sensitive practice It presents definitions and conceptual models of spirituality and religion draws connections between spiritual diversity and cultural gender and sexual orientation diversity and offers insights from Buddhism Christianity Confucianism Hinduism Indigenous religions Islam Judaism Existentialism and Transpersonal theory Eminently practical it guides professionals in understanding and assessing spiritual development and related mental health issues and outlines techniques that support transformation and resilience such as meditation mindfulness ritual forgiveness and engagement of individual and community based spiritual support systems *Spirituality and Social Work* Beth R. Crisp, 2016-04-01 For much of the twentieth century professional social work sought to distance itself from its religious origins with the consequence being that the role of spirituality in the lives of service users tended to be sidelined Yet it is clear that many people begin to explore their spirituality precisely at times when they are trying to make sense of difficult life circumstances or experiences and may come into contact with social workers In recent years there has been an increasing understanding that in order to be relevant to the lives of people they work with social workers need to go beyond their material needs but there is little understanding of how spirituality can be sensitively incorporated into practice especially when either practitioners or service users have no religious affiliation or there is no shared religious background In this pathbreaking volume Beth Crisp offers social workers ideas of beginning conversations in which spiritual values and beliefs may surface allowing service users to respond from their own framework and to begin to discuss the specific religious or spiritual practices and beliefs which are important to them She considers spirituality in the context of lived experience a perspective that she argues breaks down any mystique and suspicion of explicitly religious language by focusing on language and experiences with which most people can identify Such a framework allows exploration of issues that emerge at different stages in the lifespan both by persons who are religious and those who do not identify with any formal religion Most literature on spirituality within social work refers to the elderly to those who are sick or have been bereaved yet as Crisp points out spirituality is important for people of all ages and not just at seemingly exceptional moments Spirituality in Social Work Practice Ronald K. Bullis, 2013-10-08 First published in 1996 Currently there is a strong trend in the mental health professions to look at the whole picture when dealing

with clients Religion and spirituality are now officially accepted as a major portion of this picture In keeping with this trend this book assesses the role of spiritually oriented assessments and interventions in clinical practice By providing examples of both spiritual cosmologies and anthropologies it offers a cross cultural theoretical orientation and therapeutic rationale for spirituality in clinical settings The book is an essential resource for social workers mental health counsels bereavement specialists professional clergy and others in the helping professions Connecting Spirituality and Social Justice Michael J. Sheridan, 2016-04-08 Jim Wallis well known justice advocate and author has stated that the two great hungers in the world today are for spirituality and social justice Although social work and related fields have increasingly recognized the importance of addressing spirituality within clinical practice less attention has been paid to the role of spirituality in promoting social justice or supporting social change within macropractice The contributions in this edited collection highlight current developments in this area including emerging conceptual frameworks practice applications and research findings Theoretical approaches to understanding the link between spirituality and justice are explored in analyses of alternative models of social justice and justice orientations of major faith traditions The critical role of spirituality in larger system change is illustrated through exemplars of research on vulnerable populations community practice legislative advocacy development of social movements and ecological social work The importance of including content on religion and spirituality in professional curricula is explored through research on students attitudes toward spirituality and social advocacy Noting the resonating themes within all of these contributions the volume concludes with an overview of emerging principles for spiritual activism This book aims to stimulate further development in the vital connection between spirituality and social justice It was originally published as a special issue of the Journal of Religion Spirituality in Social Work

Spirituality Matters in Social Work James Dudley, 2016-03-02 Offering a focus that is lacking or not clearly evident in most spirituality books Dudley addresses specific ways of incorporating spirituality into practice and integrates many of the contributions of other writers into an overall eclectic practice approach His approach revolves around many of the core competencies of the EPAS accreditation CSWE 2008 Most of the core competencies are addressed with an emphasis on professional identity ethical practice critical thinking diversity practice contexts and a major practice framework of the book the practice stages of engagement assessment intervention and evaluation
