A Cry For Character:

Chinese Characters L. Wieger, 2013-05-14 For at least 2 000 years Chinese scholars have conducted research into the writing system In addition to the study of origins and the processes by which new characters are created Chinese scholarship has been especially interested in creating a rational classification of characters for dictionary use which would show historical relationships idea relationships and phonetic features This volume by one of the most profound Sinologists of the twentieth century summarizes such traditional Chinese scholarship and carries research farther into the analysis of the writing system The heart of this book is a series of etymological lessons in which approximately 2 300 Chinese characters are classified according to 224 primitives upon which they are based For each character Father Wieger gives the modern form its archaic form literary pronunciation Wade system explanations of origin semantic content of component parts related characters variant forms quotations of classical usage and similar material The explanations of symbolic content are particularly rich and gather the most important traditional explanations especially the Shuo wen of Hs shih as well as the author s own research To make his book more useful Father Wieger has also incorporated a tremendous number of reading aids for the student listings of the primitives an index of the characters analyzed arranged by number of strokes a listing of 858 phonetic elements arranged by number of strokes a listing of about 10 000 characters by phonetic element a lexicon by transliteration comprising about 7 000 characters and a lexicon of about 10 000 characters according to the customary modern system of 214 radicals devised by K ang hsi With this most extensive apparatus students can locate any character they are likely to meet Indeed this supplementary material is so useful that it serves the purpose of a dictionary in its own right Recent archeological research has for the most part sustained the historical analyses of traditional Chinese scholarship and Father Wieger For the student however more important than the historical and classificatory concerns of the book are the analyses of characters in semantic terms In the Far East analysis of characters has long been taught in such terms but unfortunately this very valuable mnemonic technique has been largely overlooked in the West With Wieger s book however both teachers and students will find learning easier and more lasting when phonetic components are understood and the relationships are perceived between various characters between original forms and present forms and between idea and symbol Father Wieger s book is an indispensable aid to every student of Chinese and Japanese **Chinese Characters**

Léon Wieger, 1915 **American Women's Suffrage: Voices from the Long Struggle for the Vote 1776-1965 (LOA #332)** Susan Ware, 2020-07-07 In their own voices the full story of the women and men who struggled to make American democracy whole With a record number of female candidates in the 2020 election and women s rights an increasingly urgent topic in the news it s crucial that we understand the history that got us where we are now For the first time here is the full definitive story of the movement for voting rights for American women of every race told through the voices of the women and men who lived it Here are the most recognizable figures in the campaign for women s suffrage like Elizabeth Cady

Stanton and Susan B Anthony but also the black Chinese and American Indian women and men who were not only essential to the movement but expanded its directions and aims Here too are the anti suffragists who worried about where the country would head if the right to vote were universal Expertly curated and introduced by scholar Susan Ware each piece is prefaced by a headnote so that together these 100 selections by over 80 writers tell the full history of the movement from Abigail Adams to the 1848 Declaration of Sentiments to the ratification of the Nineteenth Amendment in 1920 and the limiting of suffrage under Jim Crow Importantly it carries the story to 1965 and the passage of the Voting and Civil Rights Acts which finally secured suffrage for all American women Includes writings by Ida B Wells Mabel Lee Margaret Fuller Sojourner Truth Frances Ellen Watkins Harper Frederick Douglass presidents Grover Cleveland on the anti suffrage side and Woodrow Wilson urging passage of the Nineteenth Amendment as a wartime measure Jane Addams and Charlotte Perkins Gilman among many others

School Violence and Primary Prevention Thomas W. Miller,2023-01-01 This important new work covers clinical issues in treating victims of school violence and assessing children with the potential for violence The editor also examines the effectiveness of prevention intervention programs and offers larger policy recommendations The book looks at environmental factors such as cultural issues on behaviors from bullying to mass school shootings And uniquely the book delves into topics such as sexual boundaries and body image In all this book aims for a theoretical and applied picture of the current state of school violence and prevention

Reconceiving Structure in Contemporary Music Judy Lochhead,2015-06-19 This book studies recent music in the western classical tradition offering a critique of current analytical theoretical approaches and proposing alternatives The critique addresses the present fringe status of recent music sometimes described as crossover postmodern post classical post minimalist etc and demonstrates that existing descriptive languages and analytical approaches do not provide adequate tools to address this music in positive and productive terms Existing tools and concepts were developed primarily in the mid 20th century in tandem with the high modernist compositional aesthetic and they have changed little since then The aesthetics of music composition on the other hand have been in constant transformation Lochhead proposes new ways to conceive musical works their structurings of musical experience and time and the procedures and goals of analytic close reading These tools define investigative procedures that engage the multiple perspectives of composers performers and listeners and that generate conceptual modes unique to each work In action they rebuild a conceptual methodological and experiential place for recent music These new approaches are demonstrated in analyses of four pieces Kaija Saariaho s *Lonh* 1996 Sofia Gubaidulina s *Second String Quartet* 1987 Stacy Garrop s *String Quartet no 2 Demons and Angels* 2004 05 and Anna Clyne s *Choke* 2004 This book defies the prediction of classical music s death and will be of interest to scholars and musicians of classical music and those interested in music theory musicology and aural culture
