Dissociation and the Dissociative Disorders Paul F. Dell, John A. O'Neil, 2010-11 Winner of ISSTD's 2009 Pierre Janet Writing Award for the best publication on dissociation in 2009 *Dissociation and the Dissociative Disorders* is a book that has no real predecessor in the dissociative disorders field. It reports the most recent scientific findings and conceptualizations about dissociation, defines and establishes the boundaries of current knowledge in the dissociative disorders field, identifies and carefully articulates the field's current points of confusion, gaps in knowledge, and conjectures; clarifies the different aspects and implications of dissociation; and sets forth a research agenda for the next decade. In many respects, *Dissociation and the Dissociative Disorders* both defines and redefines the field. Medina by the Bay Maryam Kashani, 2023-07-07 From the Black Power movement and state surveillance to Silicon Valley and gentrification, *Medina by the Bay* examines how multiracial Muslim communities in the San Francisco Bay Area survive and flourish within and against racial capitalist, carceral, and imperial logics. Weaving expansive histories, peoples, and geographies together in an ethnographic screenplay of cinematic scenes, Maryam Kashani demonstrates how sociopolitical forces and geopolitical agendas shape Muslim ways of knowing and being. Throughout, Kashani argues that contemporary Islam emerges from the specificities of the Bay Area, from its landscapes and infrastructures to its Muslim liberal arts college mosques and prison courtyards. Theorizing the *Medina by the Bay* as a microcosm of socioeconomic, demographic, and political transformations in the twentieth and twenty-first centuries, Kashani resituates Islam as liberatory and abolitionist theory, theology, and praxis for all those engaged in struggle.

Bibliography of Agriculture with Subject Index ,1993-10 **LGBT Studies and Queer Theory** Karen Lovaas, 2013-05-13 Find out how the tension between LGBT studies and queer theory exists in the classroom, politics, communities, and relationships. *LGBT Studies and Queer Theory: New Conflicts, Collaborations, and Contested Terrain* examines the similarities and differences between LGBT studies and queer theory and the uneasy relationship between the two in the academic world. This unique book meets the challenge that queer theory presents to the study and politics of gay and lesbian studies with a collection of essays from leading academics who represent a variety of disciplines. These original pieces place queer theory in social and historical contexts, exploring the implications for social psychology, religious studies, communications, sociology, philosophy, film studies, and women's studies. The book's contributors address queer theory's connections to a wide range of issues, including the development of capitalism, the evolution of the gay and lesbian movement, and the study of bisexuality and gender. Many scholars working in gay and lesbian studies still question the intellectual and political value of queer theory. As a result, queer theory has often been concentrated in the humanities, while gay and lesbian studies are concentrated in the social sciences and history. But this has begun to change in the past 10-15 years, as

documented by the 12 essays presented in *LGBT Studies and Queer Theory New Conflicts Collaborations and Contested Terrain*. *LGBT Studies and Queer Theory New Conflicts Collaborations and Contested Terrain* includes historical notes on LGBT studies and queer theory, some continuing tensions between LGBT studies and queer theory, doubts about whether queer theory can lead to social change, an analysis of the current state of proto-fields of LGBT studies and queer studies, in religion, concerns that queer theory's erasure of identity feeds into late capitalism, an analysis of variability in social psychologists' studies of anti-homosexual prejudice, an exploration of the commodification of queer identities in independent cinema, how and why the category of bisexuality has been marginalized, a historical review and assessment of recent bisexual theory, a case study of Provincetown, Massachusetts, an investigation of the interarticulation of race, ethnicity, and gender, a case study of the struggle to introduce LGBT studies in the curriculum at West Chester University, and much more. *LGBT Studies and Queer Theory New Conflicts Collaborations and Contested Terrain* is an essential read for researchers, academics, and practitioners involved in exploring multifaceted aspects of LGBT Studies and Queer Theory and their points of convergence and divergence.
