Yegül, 1992 Enriched by over 500 illustrations many of them by the author Baths and Bathing in Classical Antiquity is an important sourcebook for this ancient institution **The Bath in Greece in Classical Antiquity** Maria-Evdokia Wassenhoven, 2012 The present study evolved out of an attempt to explore the mechanisms involved in the transformation of a social practice and its spatial context from one cultural technological and architectural system to another in a given geographical area in classical antiquity The practice chosen was that of the bath the two main and overlapping cultural traditions were the Greek and the Roman and the two technological traditions are termed in the present study before and after the hypocaust The geographical area covered in the study is that of modern Greece with a more detailed analysis of the Peloponnese Chapter 1 presents the description and classification of the different bathing traditions which appeared in the Greek territory before the 6th century BC when the first relevant evidence becomes present in the archaeological record The evolution of bath architecture in Italy the main characteristics of the Roman bathing tradition the spatial configuration of the bath in the Roman culture and finally the different kinds of typological classifications used by scholars are described in Chapter 2 In Chapter 3 the two basic bathing traditions which appear in Greece in classical antiquity are analyzed following the classification scheme which was described in the introductory chapter The final chapter looks at the key issues of the Hellenization of the Roman bathing tradition the Romanization of the bathing traditions of the Greek world and the long term evolution of the bath in antiquity are readdressed in the light of the present research Publisher's website *A Jew in the Roman Bathhouse* Yaron Eliav, 2025-08-05 A provocative account of Jewish encounters with the public baths of ancient Rome Public bathhouses embodied the Roman way of life from food and fashion to sculpture and sports The most popular institution of the ancient Mediterranean world the baths drew people of all backgrounds They were places suffused with nudity sex and magic A Jew in the Roman Bathhouse reveals how Jews navigated this space with ease and confidence engaging with Roman bath culture rather than avoiding it In this landmark interdisciplinary work of cultural history Yaron Eliav uses the Roman bathhouse as a social laboratory to reexamine how Jews interacted with Graeco Roman culture He reconstructs their thoughts feelings and beliefs about the baths and the activities that took place there documenting their pleasures as well as their anxieties and concerns Archaeologists have excavated hundreds of bathhouse facilities across the Mediterranean Graeco Roman writers mention the bathhouse frequently and rabbinic literature contains hundreds of references to the baths Eliav draws on the archaeological and literary record to offer fresh perspectives on the Jews of antiquity developing a new model for the ways smaller and often weaker groups interact with large dominant cultures A compelling and richly evocative work of scholarship A Jew in the Roman Bathhouse challenges us to rethink the relationship between Judaism and Graeco Roman society shedding new light on how cross cultural engagement shaped Western civilization **The Aphrodite of Knidos and Her Successors** Christine Mitchell Havelock, 2007 A revealing

Evans,H. Daniel Zacharias,2009-06-25 Jewish and Christian Scripture as Artifact and Canon constitutes a collection of studies that reflect and contribute to the growing scholarly interest in manuscripts as

artifacts and witnesses to early stages in Jewish and Christian understanding of sacred scripture. Scholars and textual critics have in recent years rightly recognized the contribution that ancient manuscripts make to our understanding of the development of canon in its broadest and most inclusive sense. The studies included in this volume shed significant light on the most important questions touching the emergence of canon consciousness and written communication in the early centuries of the Christian church. The concern here is not in recovering a theoretical original text or early recognized canon but in analysis of and appreciation for texts as they actually circulated and were preserved through time. Some of the essays in this collection explore the interface between canon as theological concept on the one hand and canon as reflected in the physical artifactual evidence on the other. Other essays explore what the artifacts tell us about life and belief in early communities of faith. Still other studies investigate the visual dimension and artistic expressions of faith including theology and biblical interpretation communicated through the medium of art and icon in manuscripts. The volume also includes scientific studies concerned with the physical properties of particular manuscripts. These studies will stimulate new discussion in this important area of research and will point students and scholars in new directions for future work.
