Battle Of Stalingrad:

Victory at Stalingrad Geoffrey Roberts, 2013-08-21 Victory at Stalingrad tells the gripping strategic and military story of that battle. The hard won Soviet victory prevented Hitler from waging the Second World War for another ten years and set the Germans on the road to defeat. The Soviet victory also prevented the Nazis from completing the Final Solution, the wholesale destruction of European Jewry which began with Hitler's War of Annihilation against the Soviets on the Eastern Front. Geoffrey Roberts places the conflict in the context of the clash between two mighty powers, their world views and their leaders. He presents a great human drama highlighting the contribution made by political and military leaders on both sides. He shows that the real story of the battle was the Soviets' failure to achieve their greatest ambition to deliver an immediate war-winning knockout blow to the Germans. This provocative reassessment presents new evidence and challenges the myths and legends that surround both the battle and the key personalities who led and planned it. **The Battle for Stalingrad**

Vasilii Ivanovich Chuikov, 1964 The commander of the 62nd Siberian Army tells what happened during the Battle of Stalingrad, analyzing Russian military strategy and giving a bird's-eye view of how Soviet generals planned the war and how Russian soldiers fought it. His account questions the myth that the Germans were beaten by the climate and the greater numbers of Russian troops. Confessing the view he held at the time, Chuikov explains the background to the orders he gave, describing in detail how he broke up the traditional military units to create myriads of small, flexible storm troops to conduct house-to-house fighting. Referring to the diaries and letters of soldiers, both Russian and German, he evokes the hell that was Stalingrad, a shattered city where soldiers were fighting in sewers, from rubble and from holes in the frozen earth.

Stalingrad Jochen Hellbeck, 2015-04-28 The turning point of World War II came at Stalingrad. Hitler's soldiers stormed the city in September 1942 in a bid to complete the conquest of Europe. Yet Stalingrad never fell. After months of bitter fighting, 100,000 surviving Germans huddled in the ruined city, surrendered to Soviet troops. During the battle and shortly after its conclusion, scores of Red Army commanders and soldiers, party officials and workers spoke with a team of historians who visited from Moscow to record their conversations. The tapestry of their voices provides groundbreaking insights into the thoughts and feelings of Soviet citizens during wartime. Legendary sniper Vasily Zaytsev recounted the horrors he witnessed at Stalingrad. You see young girls, children hanging from trees in the park. That has a tremendous impact. Nurse Vera Gurova attended hundreds of wounded soldiers in a makeshift hospital every day, but she couldn't forget one young amputee who begged her to avenge his suffering. Every soldier and officer in Stalingrad was itching to kill as many Germans as possible, said Major Nikolai Aksyonov. These testimonials were so harrowing and candid that the Kremlin forbade their publication, and they were forgotten by modern history until now. Revealed here in English for the first time, they humanize the Soviet defenders and allow Jochen Hellbeck in Stalingrad to present a definitive new portrait of the most fateful battle of World War II.

Battle of Stalingrad Dmitry Degtev, 2024-08-30 The Battle of Stalingrad was the bloodiest battle of the Second World

War An estimated 2 million individuals military as well as civilian became casualties in a savage struggle which lasted for more than five months Stalingrad's strategic position on the River Volga in southern Russia meant that whoever controlled the city controlled access to the oil fields of the Caucasus Without that oil the Germans were ultimately destined to fail on all fronts The Battle of Stalingrad was therefore arguably the most important conflict of the entire war Yet the author argues that both Hitler and Stalin lost sight of the real objectives of the campaign with the capture of Stalingrad becoming seen as the end in itself Stalingrad was not specified as a particular objective of the Germans in the original plan of Operation Blau But when the defenders of Stalingrad unexpectedly stood in the way of the Germans it became the focal point of the German effort Hitler and his generals were naively sure that after the capture of Stalingrad victory in the war was a certainty Stalin and his generals thought that since the Wehrmacht stubbornly fought over the city's ruins regardless of the losses it suffered it meant that the Germans knew more about its importance than they did and so were determined to hold it at all costs In fact the strategic importance of Stalingrad was greatly exaggerated The scale of the German operation to seize the Caucasus was immense with an operation stretching for 1 500 00 kilometres approximately equal to the distance between Berlin and Moscow This involved laying routes for tank and infantry divisions through areas of virtual desert where there was an almost complete absence of railways and highways No consideration was given to the needs of troops in fuel ammunition food or even water At the same time the unrealistic plan to capture the Caucasus did not provide any alternative options in case the main operation failed which it was doomed to do As for the Soviets frightened and broken by the military disasters near Kerch and Kharkov when entire armies were captured Stalin authorized the retreat of the Red Army to the Volga which turned into a stampede But then the Soviet leader abruptly changed his mind and issued the famous order Not a step back While historians state that this order inspired the Soviet troops to resist and strengthened discipline it in fact led to an increase in the number of defectors and collaborators This ground breaking study of the Battle of Stalingrad is a highly graphic chronicle of the fighting shown from two sides written by a Russian historian using much material previously unpublished in the West It details the efforts of all branches of the armed forces tanks artillery infantry aviation and for the first time the important contribution of the Russian river flotilla
