Beam Defense An Alternative To Nuclear Destruction:

Beam Defense Fusion Energy Foundation,1983 Describes the weaknesses of the military policy of Mutual Assured Destruction and explains how lasers and particle beam weapons could defend the U S against missile attack An Alternative to Nuclear Destruction - BEAM DEFENSE. , The higher the frequency of the laser s beam of electromagnetic radiation the more efficient the beam in disabling the missile Throughout the history of playing by the rules of the so called MAD doctrine there has been a great impetus to irrational behavior by the nuclear powers toward the nonnuclear nations the majority of the world The coming several years will be probably the most difficult of the entire postwar period but for the first time since the end of the 1962 Cuban Missile Crisis there is at last hope that the thermonuclear nightmare will be ended during the remainder of this decade The probes orient toward the threat corridor reported by the early warning satellite and from distances up to a few thousand miles the computer calculates the trajectories of the missiles and detects the decoys This heat ray when it hits the outside of a ballistic missile literally burns through the skin of the missile melting the outside and weakening the structural parts of the missile **Air Defense Artillery** ,1983 A History of Military Encounters with UFOs Robert Allred,2024-12-30 This book explores the long history of military encounters with UFOs revealing hidden incidents of dogfights nuclear interference and mysterious confrontations with unidentified aerial phenomena Military bodies across the world have encountered experimented with and even had combat with UFOs or as the U S military now define them Unidentifiable Aerial Phenomenon or UAPs These observations and engagements have occurred since ancient times and on all continents Different nations and cultures have had vastly different analyses of the UFO UAP phenomenon from the Roman Empire to Nazi Germany and the Soviet Union and Communist China to the Western democracies The UFO UAP phenomenon has not diminished and has in fact grown in proportion in recent years and has now assumed the mantle of legitimacy in government circles the media and among the general public What is less well known or even concealed are the encounters that the military have had with UFOs some of which have even proved fatal to the terrestrials concerned There were reported dogfights with UFOs and German aircraft in the First World War and in the Second World War reports of what became known as Foo Fighters became commonplace However it was after the war that UFO sightings increased exponentially amongst which was a dogfight with a Mustang P 51 and a UFO in October 1948 and two years later for two consecutive weekends in 1952 UFOs hovered over Washington D C Attempts were made by the U S Air Force to intercept the strange craft but were outrun by the UFOs UFOs UAPs may have tampered with world nuclear forces including shutting down strategic missiles of the United States and conversely activating Soviet ICBMs almost setting off an unordered by Soviet authorities launching of atomic warheads against the United States UFOs may also have returned fire against American military forces during the Vietnam War sending projectiles back at patrol boats that had been fired by those military river craft at UFOs hours or days before United States Air Force personnel including a Lieutenant Colonel also

encountered UFOs on the ground and in the air at Rendlesham USAF RAF base in the UK in 1980 UFOs have played cat and mouse games with the latest fighter bombers of the United States Navy since 2004 and these events have been captured on videotape and are verified to have occurred by the pilots themselves As readers will discover from the mass of evidence presented in this book it is no longer a question of whether UFOs exist or not and that not only are such phenomenon an incontrovertible fact but that the United States has crafted plans on how to resist an alien invasion But is there any need for us humans to be concerned about the alien presence in the skies that surround our planet Yes be very concerned
