Nordic Future of Work Conference I Tuomo Alasoini, Jari Lindström, Raymond Torres , Kerstin Ahlberg, Shauna Olney , Antti Kauhanen, Lisbeth Pedersen , Marianna Traustadóttir, Thomas Janson, 2017-11-09

Abstract The conference aimed to identify Nordic and global future of work trends including new forms of work and new technologies and production models resulting from digitalization It pointed to challenges of ensuring adequate protection

employment opportunities and safeguarding competitiveness in the Nordic region amidst rapid technological and demographic changes As policy responses speakers identified the need to invest in education and skills to update policies legislation and collective agreements to better respond to the future labour market Furthermore they emphasised that social protection should have a broad coverage and encourage active labour market participation Global cooperation labour standard and social dialogue are needed to promote decent work Last but not least gender equality is an important principle and policy goal also for the future ILO work

Nordic Conference on Future of Work: Towards the ILO Centenary Lindahl, Björn, Sigurðardóttir, Guðrún Helga, Wallin, Gunhild, 2019-12-05 In connection to the 100th anniversary of the ILO in 2019 the Nordic Council of Ministers arranged a conference to debate the future of work in the Nordics The event was held on the 4th 5th of April in Reykjavik and was the last in a series of four annual conferences The debates centered on the changing labour market and whether the Nordic model will be able to adapt to this The conference lasted two days each with a particular theme 1 Future of Work where the future of the Nordic model was discussed 2 Gender Equality where the debate revolved around the challenges and solutions regarding the inequalities between men and women on the labour market The programme included perspectives from all the Nordic countries as well as from international organisations such as the ILO and the OECD international companies Nordic labour market authorities social partners and companies

Handbook of Research on Future of Work and Education: Implications for Curriculum Delivery and Work Design Ramlall, Sunil, Cross, Ted, Love, Michelle, 2021-10-08 Higher education has changed significantly over time In particular traditional face to face degrees are being revamped in a bid to ensure they stay relevant in the 21st century and are now offered online The transition for many universities to online learning has been painful only exacerbated by the COVID 19 pandemic forcing many in person students to join their virtual peers and professors to learn new technologies and techniques to educate Moreover work has also changed with little doubt as to the impact of digital communication remote work and societal change on the nature of work itself There are arguments to be made for organizations to become more agile flexible entrepreneurial and creative As such work and education are both traversing a path of immense changes adapting to global trends and consumer preferences The Handbook of Research on Future of Work and Education Implications for Curriculum Delivery and Work Design is a comprehensive reference book that analyzes the realities of higher education today strategies that ensure the success of academic institutions and factors that lead to student success In particular the book addresses essentials of online learning strategies to ensure the success of online degrees and courses effective course development practices key support mechanisms for students and ensuring student success in online degree programs Furthermore the book addresses the future of work preferences of employees and how work can be re designed to create further employee satisfaction engagement and increase productivity In particular the book covers insights that ensure that remote employees feel valued included and are being provided relevant support to thrive in their roles Covering topics such as course development

motivating online learners and virtual environments this text is essential for academicians faculty researchers and students globally Sociology and the Future of Work Paul Ransome, 2019-01-04 First published in 1999 this book adopts an explicitly forward looking and dynamic approach in trying to understand not only where the sociology of work has come from but of where it is likely to go next For the first time in a single volume it reviews the continuing usefulness of the classical accounts of Karl Marx Max Weber and Emile Durkheim the post industrial accounts of the 1960s and 1970s and the post Fordist accounts of the 1980s and 1990s It provides specific treatment of key topics such as technological change and flexibility the impact of gender on work the changing nature of the relationship between work and personal identity and the possible emergence of economic globalization all of which are currently receiving much academic and popular attention The treatments of gender identity and globalization are challenging and innovative in that they go beyond simply describing current debates and question the validity of some of the premises on which they are based For example that it is not possible to provide a unifying explanation of gender inequality at work because its causes are multiple rather than singular that it is wrong to imply that work will cease to be an important basis of personal identity and that evidence of economic globalization is far too patchy to justify the claim that we are living in a global economy The text combines theoretical analysis with clear descriptions of the key arguments and tests these against current empirical data
