Agrarian Structure And Political Power In Mexico:

Agrarian Structure and Political Power in Mexico Roger Bartra, 1993 *Dismantling the Mexican State?* Rob Aitken, Nikki Craske, David E. Stansfield, 2016-07-27 In assessing Carlos Salinas socio economic reforms the authors question the extent to which the Mexican state has been radically transformed and possibly dismantled The authors show that the changes which have occurred are uneven limited and reversible Despite the aura of reform it is the degree of continuity which is the most noticeable feature In many respects the Mexican State remains highly authoritarian **Ethnicity, Class, and the Indigenous Struggle for Land in Guerrero, Mexico** Norberto Valdez, 2018-10-24 This study focuses on Amuzgo Indian communities of the Costa Chica of Guerrero state in Mexico in order to analyze the indigenous struggle for land and its relationship to ethnic identity and culture Primary archival data and field research reveal a historical profile of this multi ethnic region with a long and fascinating history of resistance to non Indian control of communal lands and labor The dynamics of 19th century liberal economic reforms privatization of Indian lands militarization interventions of foreign capital class conflicts and impoverishment are reflected in contemporary processes in the Costa Chica The image of the resilient peasant or campesino masks negative aspects of peasant status in the class structure including poverty and superexploitation of family labor and the intra and inter familial conflicts that are a significant aspect of daily life Case studies of land conflicts explore these class issues as well as the relationship between gender inequalities and insecurities of land tenure Indian communal lands ejidos are more than an economic means of agricultural production such lands are also the basis of cultural reproduction and provide a framework in which political resistance can emerge Bibliography Index *The Concept of Other in Latin American Liberation* Eugene Walker Gogol, 2002-01-01 In this exciting new study Eugene Gogol interweaves three strands that form the intellectual bedrock for the concept of the Other in the Latin American context Hegel s dialectic of negativity Marx s humanism and autochthonal emancipatory thought From this foundation the book explores the relation of liberatory philosophic thought to today s social and class movements Gogol considers the logic of capitalism on Latin American soil the ecological crisis in Latin America and the concept and practice of self liberation Still one of the most contested terrains of Latin American thought the Other has been of central concern for many luminary thinkers including Leopoldo Zea Octavio Paz and Jos Z Carlos Mari Otegui While these writers may not garner much publicity in the world press the highly public and ongoing struggles of the Zapatistas and Brazil s Landless Workers Movement demonstrate the continuing need to theorize the volatile nature of Latin American social reality **Reinventing the Lacandón** Brian Gollnick, 2022-08-23 Before massive deforestation began in the 1960s the Lacand n jungle which lies on the border of Mexico and Guatemala was part of the largest tropical rain forest north of the Amazon The destruction of the Lacand n occurred with little attention from the international press until January 1 1994 when a group of armed Maya rebels led by a charismatic spokesperson who called himself Subcomandante Marcos emerged from jungle communities and briefly occupied several

towns in the Mexican state of Chiapas These rebels known as the Zapatista National Liberation Army became front page news around the globe and they used their notoriety to issue rhetorically powerful communiqués that denounced political corruption the Mexican government's treatment of indigenous peoples and the negative impact of globalization As Brian Gollnick reveals the Zapatista communiqués had deeper roots in the Mayan rain forest than Westerners realized and he points out that the very idea of the jungle is also deeply rooted though in different ways in the Western imagination Gollnick draws on theoretical innovations offered by subaltern studies to discover oral traces left by indigenous inhabitants in dominant cultural productions He explores both how the jungle region and its inhabitants have been represented in literary writings from the time of the Spanish conquest to the present and how the indigenous people have represented themselves in such works including post colonial and anti colonial narratives poetry video and photography His goal is to show how popular and elite cultures have interacted in creating depictions of life in the rain forest and to offer new critical vocabularies for analyzing forms of cross cultural expression

The History of Mexico Philip Russell, 2011-04-06 The History of Mexico From Pre Conquest to Present traces the last 500 years of Mexican history from the indigenous empires that were devastated by the Spanish conquest through the election of 2006 and its aftermath The book offers a straightforward chronological survey of Mexican history from the pre colonial times to the present and includes a glossary as well as numerous tables and images for comprehensive study For additional information and classroom resources please visit The History of Mexico companion website at www.routledge.com/textbooks/russell

The Mexican Transition Roger Bartra, 2013-01-15 This book is a collection of essays on the Mexican transition to democracy that offers reflections on different aspects of civic culture the political process electoral struggles and critical junctures

The Statesman's Year-Book 1993-94 B. Hunter, 2016-12-23 The classic reference work that provides annually updated information on the countries of the world **1993-1994** Brian Hunter, 2021-06-21 No detailed description available for 1993 1994

Tourism Development Peter M.
