Agricultural Price Policies And The Developing Countries:

What Price Food? Paul Streeten, 2016-01-03 The starting point of Paul Streeten's book is the dilemma faced by policy makers in many developing countries should the price of food be high in order to stimulate production or low in order to prevent poor food buyers from starving The author goes on to discuss the role of prices in the light of these and other objectives It is the work of one of our wisest scholars on what I consider to be the key policy issue for economic development in the 1980s this provocative essay will be required reading for anyone working on agricultural price policy C Peter Timmer It provides solid and practical guidance to scholars and decision makers It is lucid balanced and above all useful Robert Klitgaard Paul Streeten is well known for his gift of explaining the pros and cons of difficult policy issues in a clear simple and realistic way appealing to policy makers students and the wider development community as well as to academic colleagues This gift is fully displayed in his new book and readers are bound to emerge with a better awareness of the conflicts and policy reforms which are involved H W Singer

Agricultural Price Policies and the Developing Countries George S. Tolley, Vinod Thomas, Chung Ming Wong, 1983 **Agricultural Price Policies** Food and Agriculture Organization of the United Nations, 1987-01-01 Naast een analyse van de prijsontwikkelingen op de landbouwmarkt sinds begin 1970 en van het beleid hierbij in voornamelijk de ontwikkelingslanden wordt ook het prijzenbeleid in de rijkere landen bekeken die internationaal meer invloed hebben en in de centraal geregeerde landen deze laatste zowel inhoudende de meer welvarende als de minder welvarende landen *Agricultural Price Policies Under Complex Socioeconomic and Natural Constraints* Raisuddin Ahmed, 1981 Research report on the effect of agricultural price policy for agricultural production in Bangladesh examines the case of rice and Jute land utilization production costs supply and demand irrigation agricultural surplus etc and discusses implications for agricultural employment and rural welfare Bibliography pp 74 to 78 and graphs

Agricultural Price Distortions, Inequality, and Poverty Kym Anderson, John Cockburn, Will Martin, 2010-03-17 The prices of farm products are crucial determinants of the extent of poverty and inequality in the world The vast majority of the world's poorest households depend to a considerable extent on farming for their incomes while food represents a large component of the consumption of all poor households For generations food prices have been heavily distorted by government policies in high income and developing countries Many countries began to reform their agricultural price and trade policies in the 1980s but government policy intervention is still considerable and still favors farmers in high income countries at the expense of many farmers in developing countries What would be the poverty and inequality consequences of the removal of the remaining distortions to agricultural incentives This question is of great relevance to governments in evaluating ways to engage in multilateral and regional trade negotiations or to improve their own policies unilaterally **Agricultural Price Distortions Inequality and Poverty** analyzes the effects of agricultural and trade policies around the world on national and regional economic welfare on income inequality among and within countries and on the level and incidence of poverty in

developing countries The studies include economy wide analyses of the inequality and poverty effects of own country policies compared with rest of the world policies for 10 individual developing countries in three continents This book also includes three chapters that each use a separate global economic model to examine the effects of policies on aggregate poverty and the distribution of poverty across many identified developing countries This study is motivated by two policy issues first the World Trade Organization s struggle to conclude the Doha Round of multilateral trade negotiations in which agricultural policy reform is again one of the most contentious topics in the talks and second the struggle of the developing countries to achieve their Millennium Development Goals by 2015 notably the alleviation of hunger and poverty which depends crucially on policies that affect agricultural incentives *Bibliography on Law and Developing Countries* Brian Z.

Tamanaha,2023-11-27 The citations listed in this bibliography were published between 1975 and mid 1993 Substantial legal developments have occurred since 1975 and the vast bulk of materials on the subject has been produced since that time The citations are grouped under 53 different subject headings Some subjects are further divided into subcategories Audience Lawyers legal scholars social scientists and civil servants involved in development issues *Agricultural Price Policy for Developing Countries* John Williams Mellor,Raisuddin Ahmed,1988 The international environment for national price policies Domestic market intervention Production response technology and commercialization Consumers welfare **Agricultural Price Policy** Isabelle Tsakok,2019-05-15 Many governments of developing countries burdened with international debt are under ever increasing pressure to use their scarce economic resources wisely Faced with slow progress in alleviating poverty and stimulating economic growth they especially need to end wasteful subsidies and revise inefficient tax policies This book will help staff members of government planning agencies and ministries of finance and agriculture to analyze the effects of government policies on the production consumption and export of agricultural commodities The analytical techniques that Isabelle Tsakok demonstrates in this book are the essential first step in reforming agricultural price policy to bring about a more efficient allocation of resources After mastering the techniques of single market partial equilibrium analysis which are the book s focus policy analysts can use the techniques to identify when more sophisticated methods such as multi market analysis and computable general equilibrium models are needed to determine what agricultural price policies are right Tsakok begins with graphical analysis and data requirements in order to build intuitive understanding and progresses through steadily more complex techniques demonstrating step by step the calculation of domestic resource costs effective rates of protection and related coefficients of protection Providing a wide range of numerical real world examples to illustrate the practical application of the partial equilibrium framework *Agricultural Price Policy* is an invaluable reference manual and teaching tool **Agricultural Policy Analysis** Jeevika Weerahewa,Andrew Jacque,2022-04-09 This book is centred around various interwoven topics which are fundamental to policy analysis in agriculture Key concepts and tools that are fundamental for the analysis of agricultural policies and programmes are presented Key concepts introduced include the

role of the state in a market economy with examples from the Sri Lankan and other developing economies the international trade environment and conceptual frameworks for analysing important domestic and international trade policies It also highlights interconnections among agriculture development policy and illustrates the extent to which the agricultural sector contributes in achieving economic growth objectives equity and equality objectives and environmental objectives The book takes the readers through the nature of agricultural markets in developing countries with special emphasis on Sri Lanka and illustrates how the degree of competitiveness is measured at various market levels using multiple indices and methods Several tools with accompanying case studies for the analysis of policies and programmes are detailed These tools include the GTAP model gravity models extended benefit cost analysis and linear programming Tools and models are applied to the analysis of trade policies and agreements marketing policies environmental services extension programmes land tenure reforms and climate change adaptations Case studies in relation to the agri food policy and strategy response to COVID 19 Pandemic are also covered This book is of interest to public officials working in agricultural planning and agricultural policy teachers researchers agro economists capacity builders and policymakers Also the book serves as additional reading material for undergraduate and graduate students of agriculture development studies and environmental sciences National and international agricultural scientists policy makers will also find this to be a useful read

The Political Economy of Agricultural Price Distortions Kym Anderson, 2010-08-30 Despite numerous policy reforms since the 1980s farm product prices remain heavily distorted in both high income and developing countries This book seeks to improve our understanding of why societies adopted these policies and why some but not other countries have undertaken reforms Drawing on recent developments in political economy theories and in the generation of empirical measures of the extent of price distortions the present volume provides both analytical narratives of the historical origins of agricultural protectionism in various parts of the world and a set of political econometric analyses aimed at explaining the patterns of distortions that have emerged over the past five decades These new studies shed much light on the forces affecting incentives and those facing farmers in the course of national and global economic and political development They also show how those distortions might change in the future
