Air Raid The Bombing Campaigns Of World War II:

Strategic Bombing by the United States in World War II Stewart Halsey Ross, 2015-10-03 The United States relied heavily on bombing to defeat the Germans and the Japanese in World War II and air raids were touted as precision bombing in American propaganda But was precision possible over cloud covered Europe or a darkened Japanese countryside Could the vaunted Norden optical bombsight in fact drop bombs into pickle barrels as advertised Were the American aircrews well trained and well protected How good were their airplanes What were the results of the costly raids This work sets suppositions against facts surrounding the United States use of strategic bombing in World War II Chapters cover the events leading up to World War II the start of the war the seers and the planners the airplanes bombs bombsights and aircrews the planes Germany used to defend itself against American planes the five cities Hamburg Dresden Tokyo Hiroshima and Nagasaki that experienced the most destruction and the U S Strategic Bombing Survey of the damage done by aerial bombing The book also probes the government s myth building statements that supported America s view of itself as a uniquely humanitarian nation and analyzes the role played by interservice rivalry battleship admirals against bomber generals

Air Raid Tom McGowen, 2001-01-01 Offers a history of aerial bombardment from the first hand held bombs to the firebombing of World War II including the use of atomic bombs and discussing the strategy by the Germans and the rationale of the response by the Allies

Bombs Away! John R. Bruning, 2011-05-22 Bombs Away covers strategic bombing in Europe during World War II that is all aerial bombardment of a strategic nature which took place between 1939 and 1945 In addition to American U S Army Air Forces and British RAF Bomber Command strategic aerial campaigns against Germany this book covers German use of strategic bombing during the Nazi s conquest of Europe the Battle of Britain Operation Barbarossa and the V 1 and V 2 where the Luftwaffe targeted Warsaw and Rotterdam known as the Rotterdam Blitz In addition the book covers the blitzes against London and the bombing of other British industrial and port cities such as Birmingham Liverpool Southampton Manchester Bristol Belfast Cardiff and Coventry bombed during the Battle of Britain The twin Allied campaigns against Germany the USAAF by day the RAF by night built up into massive bombing of German industrial areas notably the Ruhr followed by attacks directly on cities such as Hamburg Kassel Pforzheim Mainz Cologne Bremen Essen D sseldorf Hanover Dortmund Frankfurt and the still controversial fire bombing of Hamburg and Dresden In addition to obvious targets like aircraft and tank manufacturers ball bearing factories and plants that manufactured abrasives and grinding wheels were high priority targets Petroleum refineries were a key target with USAAF aircraft based in North Africa and later Italy bombing the massive refinery complexes in and around Ploesti Romania until August 1944 when the Soviet Red Army captured the area Other missions included industrial targets in southern Germany like Regensburg and Schweinfurt Missions to the Nazi capital Berlin started in 1940 and continued through March 1945 Throughout the war there were 314 air raids on Berlin All of this is covered in detail with authoritative text and hundreds of

archival photographs many rare or never before published The German War Machine in World War II David T. Zabecki, 2019-12-02 This invaluable resource offers students a comprehensive overview of the German war machine that overran much of Europe during World War II with close to 300 entries on a variety of topics and a number of key primary source documents This book provides everything the reader needs to know about the German war machine that developed into the potent armed force under Adolf Hitler This expansive encyclopedia covers the period of the German Third Reich from January 1933 to the end of World War II in Europe in May 1945 Dozens of entries on key battles and military campaigns military and political leaders military and intelligence organizations and social and political topics that shaped German military conduct during World War II are followed by an illuminating epilogue that outlines why Germany lost World War II A documents section includes more than a dozen fascinating primary sources on such significant events as the Tripartite Pact among Germany Italy and Japan the Battle of Stalingrad the Normandy Invasion the Ardennes Offensive and Germany's surrender In addition six appendices provide detailed information on a variety of topics such as German ace military commanders and military medals and decorations The book ends with a chronology and a bibliography of print resources

To Destroy A City Herman Knell, 2003-03-20 A German survivor of the Allied air campaign in World War II provides a unique and thought provoking perspective on strategic wide area bombing *World War II* Spencer C. Tucker, 2016-09-06 With more than 1 700 cross referenced entries covering every aspect of World War II the events and developments of the era and myriad related subjects as well as a documents volume this is the most comprehensive reference work available on the war This encyclopedia represents a single source of authoritative information on World War II that provides accessible coverage of the causes course and consequences of the war Its introductory overview essays and cross referenced A Z entries explain how various sources of friction culminated in a second worldwide conflict document the events of the war and why individual battles were won and lost and identify numerous ways the war has permanently changed the world The coverage addresses the individuals campaigns battles key weapons systems strategic decisions and technological developments of the conflict as well as the diplomatic economic and cultural aspects of World War II The five volume set provides comprehensive information that gives readers insight into the reasons for the war's direction and outcome Readers will understand the motivations behind Japan's decision to attack the United States appreciate how the concentration of German military resources on the Eastern Front affected the war's outcome understand the major strategic decisions of the war and the factors behind them grasp how the Second Sino Japanese War contributed to the start of World War II and see the direct impact of new military technology on the outcomes of the battles during the conflict The lengthy documents volume represents a valuable repository of additional information for student research **American Airpower Strategy in World War II** Conrad C. Crane, 2016-04-05 Resistance is a product of will times means Carl von Clausewitz postulated in his treatise *On War* In his 1993 *Bombs Cities and Civilians* which the *American Historical Review* judged must reading for

anyone interested in the subject of air warfare Conrad C Crane focused on the moral dimension of American air strategy in World War II specifically the Allied effort to break the enemy's will through targeting civilians With decades of research and reflection and a wealth of new material at his command Crane returns to the subject of America's WWII airpower strategy to offer an analysis fully engaged with the means side of Clausewitz's equation the design and impact of strategic bombing of the enemy's infrastructure and thus its capacity to fight A marked advance in our understanding of the use of airpower in war in general and the Second World War in particular Crane's work shows how despite an undeniable lack of concern about civilian casualties in Germany and Japan late in the war American strategic bombing in WWII consistently focused on destroying the enemy's war making capacity instead of its collapsing will Further Crane persuasively argues that in the limited wars since then separating such targets has become increasingly more difficult and all air campaigns against states have subsequently escalated to accept greater risks for civilians American Airpower Strategy in World War II also provides an expanded close look at the use of airpower in the last three months of the strategic air war against Germany when so many bombing missions relied upon radar aids as well as the first direct comparison of 8th and 15th Air Force bombing campaigns in Europe The result is the most coherent and concise analysis of the application and legacy of Allied strategic airpower in WWII and a work that will inform all future practical and theoretical consideration of the use and the role of airpower in war
