Kim, 2023-07-28 The political system established by the Chinese Communist Party in 1949 had its origins in many respects in the Chinese Soviet Republic of 1931 1934 based in southern Kiangsi province about 400 miles southwest of Shanghai The Kiangsi period was important because it gave the Chinese Communists their first opportunity to govern an extensive area and a large population and in so doing to develop methods of mass mobilization as well as new techniques for conducting party and government affairs Kim explores the evolution of the Chinese Communist movement during the Kiangsi soviet period especially its organizational concepts behavioral patterns and development techniques of mass line politics He seeks answers to several questions What notions of organization shaped the Kiangsi political system Who formulated the policies How were they implemented at the rice roots level of government By analyzing Mao Tse tung s writings on organization and comparing them with those of other Chinese Communist theoreticians he achieves fresh insights into Mao s approach to administration and bureaucratic organization The distinct contribution of this book lies in its focus on such issues as how the Chinese Communist leaders viewed organizational problems within their movement especially following the failure of the 1947 revolution how they responded to these problems and how they maintained a balance of power among the party the government and the Red Army while administering the expanding territorial base and managing complex organizations This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1973 *Chinese Communist Materials at the Bureau of Investigation Archives, Taiwan* Peter Donovan, Carl Dorris, Carl E. the Bureau in the fields of political science and history 1 4 The Economy of Communist China, 1949-1969 Chu-yuan Cheng, 2020-08-06 Economic development in mainland China during the first two decades of Communist control provides a typical example for the difficult task to transform a vast underdeveloped agrarian economy into a modern industrial one In the first half of this period a series of massive transformations of social and economic institutions was accompanied by a drafted industrialization program the result was an impressive speed up in economic growth The second decade witnessed an economic crisis 1960 62 and a political upheaval 1966 68 These disruptions marred the economic performance over the period as a whole Consequently the long term growth rate appears to have been only moderate The Economy of Communist China reviews selected aspects of the economy After examining the development strategy it analyzes the quantitative trends and the structural changes The book goes on to analyze the key factors contributing to the earlier growth and the elements responsible for the later disruption and finally assesses the impact of the Cultural Revolution on the Chinese economy and the prospects of the current Third Five Year Plan The text includes a bibliography of selected materials on Chinese economic development Agrarian Policy of the Chinese Communist Party, 1921-1959 Kuo-chün Chao, 1960 **Agrarian Policy of the Chinese Communist Party, 1921-1959.
