Pederson,1996 Concise discussions of the lives and principal works of prominent science fiction authors written by subject experts *American Women's Regionalist Fiction* Monika Elbert,Rita Bode,2021-01-04 American Women s Regionalist Fiction Mapping the Gothic seeks to redress the monolithic vision of

American Gothic by analyzing the various sectional or regional attempts to Gothicize what is most claustrophobic or peculiar about local history Since women writers were often relegated to inferior status it is especially compelling to look at women from the Gothic perspective The regionalist Gothic develops along the line of difference and not unity thus emphasizing regional peculiarities or a sense of superiority in terms of regional history natural landscapes immigrant customs folk tales or idiosyncratic ways The essays study the uncanny or the haunting quality of the commonplace as Hawthorne would have it in his introduction to The House of the Seven Gables in regionalist Gothic fiction by a wide range of women writers between ca 1850 and 1930 This collection seeks to examine how if the regionalist perspective is small limited and stultifying and leads to Gothic moments or whether the intersection between local and national leads to a clash that is jarring and Gothic in nature
