

viewed as an adolescent addiction to the "now" without history (95) and as "bibliolatry" (165). Similarly, D. underscores the human and ecclesial loss of innocence, as well as the anger and mistrust of self and others, when children discover they have been lied to or when the complicity of trusted (religious?) authority in the history of atrocities has been revealed. Faith and theology are well served by the work's repeated reminder of the "whispered 'is not' that a live metaphor always carries in its affirmation" (209), which recalls Catholicism's oft forgotten apophatic traditions. Some startling statements occur in the text, even in the context of discussing Providence and creation, for example, as the reader is told that "human parents have the spiritual capacity to ensoul their offspring" (269)! The text sagely notes that canonical criticism liberates from the need to canonize only the most ancient formulae (158), and that "postcritical belief . . . abandons literalness, not because it is necessarily untrue, but because it is not true enough" (274).

Aside from this reviewer's hopeful suspicion that D. views the hierarchy in too excessively negative a fashion, a variety of questions remain: Is the critical character of modern culture too positively or individualistically presented? Given the potential usefulness of canonical criticism, how does mature autonomy move toward the interdependence necessary for genuine Christian community? Is it theological rationalism and legalism alone which left the average believer in the grip of such affective guilt (194)? Did not virginity as neo-martyrdom also play a role in early monasticism and the negative view of sexuality among the post-Constantinian churches (228)? An example of minor quibbles from this reader would be a query regarding whether the Church should not be seen as a primary referent for the pregnant mother of Rev 12:4-5 rather than a nonvirginal allusion to the person of Mary (283)? The questions are many and this work is very dense in its logical development. Its fresh approach to Bultmann's demythologizing work is useful.

Because D.'s fundamental concern, namely the appropriation of the Church's ancient faith by contemporary adults imbued with the culture of science and reason, is so crucial for Catholic identity today, and for the passing on of faith to future generations, his book is worth the effort!
