Speight, John Toki, 1995 This is the only introductory ceramics text available that combines a thorough appreciation of the aesthetics of ceramic art with extensive discussions of the history of ceramics as well as techniques for working in clay The Ceramics Reader Kevin Petrie, Andrew Livingstone, 2020-09-17 The *Ceramics Reader* is an impressive editorial collection of essays and text extracts covering every discipline within ceramics past and present Tackling such fundamental questions as why are ceramics important the book also considers the field from a range of perspectives as a cultural activity or metaphor as a vehicle for propaganda within industry and museums and most recently as part of the expanded field as a fine art medium and hub for ideas Newly commissioned material features prominently alongside existing scholarship to ensure an international and truly comprehensive look at ceramics *The New Age of Ceramics* Hannah Stouffer, 2016 While most surveys of contemporary art focus largely on two dimensional work there is a growing movement of emerging as well as established artists that are producing work in the ceramic medium The *New Age of Ceramics* documents that movement accross 180 illustrations it showcases a story of the art world redefining what was previously considered craft rather than art
