My Concept Of Hinduism Vinay Kr Sinha, 2019-04-01 Hindu philosophy tells us that the most important thing in life is Karma action Purposeful action done with integrity leads to Purushartha worthy endeavors achievements and fulfillments Purushartha has four aspects Dharma right aims objectives and endeavors Artha acquisition of physical necessities Kama emotional fulfillment and Moksha riddance of clutter both physical and mental These ideas were not created in a day but accumulation of thoughts over the ages and generations The first thinkers were the Rakshasas and their deity Yam gave us the first laws and philosophies Over the millenniums many additional laws and by laws came up This gave us a very dynamic society which scoured the seas the story of which is narrated in the Samudra Manthan Through Samudra Manthan many new ideas came from other lands which got incorporated into Indian thoughts and this dynamism created the Indus Valley civilization IVC In IVC people of many cultures came to reside and that created a vast literature comprising Manusmriti Puranas Samhitas Vedas Gita Mahabharata and many others The new philosophy of Vaishnavism came up and transformed India to such an extent that India became known as the bird with golden feathers However for reasons not fully known the IVC collapsed but the engineers and architects who created IVC spread all over the then known world and made those worlds richer and magnificent This narrative is an attempt to recount this lost saga in a very simple language The author hopes that it will be interesting to the reader [The Living Age](#) ,1903 **The Genesis of the Turks** Osman Karatay, 2022-01-25 This book suggests a new theory on the origins and Urheimat of the Turks within the context of Central Eurasia and more properly the South Urals by exploring the relations of the Turkic language with the Altaic Uralic and Indo European languages and by referring to historical genetic and archaeological sources The book shows that the elements that started the making of the Turkic ethno linguistic entity were also shared by the regions where the later Hungarians would emerge and that the consolidation of their identity seems to be related to the emergence and rise of the Sintashta culture It argues that the fertile lands and suitable climatic conditions together with the coming of agriculture likely at the end of the 3rd millennium BC allowed them to increase their population **Terrapsychology** Craig Chalquist, Garret Barnwell, 2023-08-11 Reflecting on and exploring the connection between the environments in which we live and our moods motivations and dreams this insightful volume takes the growing field of terrapsychology into new and exciting directions This book draws together a group of contemporary voices in terrapsychology to explore lived topics such as ecotransference encountered with sacred place alternative mapping and expressions of solidarities with sacred sites place dreaming locianalysis trans species encounters deep genealogy terraplomacy and Hermeticism The chapters focus on praxis demonstrating how each author's relationship with the more than human world has been reenacted revealing remembering and co creating relationships and community for life to flourish Co edited by Craig Chalquist and Garret Barnwell this collection will interest scholars students and practitioners across a range of fields including analytical psychology environment psychology and cultural
