All Religions Are Good In Tzintzuntzan:

All Religions Are Good in Tzintzuntzan Peter S. Cahn, 2003-10 Since the 1960s evangelical Christian denominations have made converts throughout much of Roman Catholic Latin America causing clashes of faith that sometimes escalate to violence Yet in one Mexican town Tzintzuntzan the appearance of new churches has provoked only harmony Catholics and evangelicals alike profess that all religions are good a sentiment not far removed from here we are all equal which was commonly spoken in the community before evangelicals arrived In this paradigm challenging study Peter Cahn investigates why the coming of evangelical churches to Tzintzuntzan has produced neither the interfaith clashes nor the economic prosperity that evangelical conversion has brought to other communities in Mexico and Latin America Drawing on extensive ethnographic fieldwork he demonstrates that the evangelicals energetic brand of faith has not erupted into violence because converts continue to participate in communal life while Catholics in turn participate in evangelical practices He also underscores how Tzintzuntzan s integration into global economic networks strongly motivates the preservation of community identity and encourages this mutual borrowing At the same time however Cahn concludes that the suppression of religious difference undermines the revolutionary potential of religion All Religions Are Good in Tzintzuntzan Peter S.

Jason Dormady Martin Austin Nesvig Matthew D O Hara Daniela Traffano Paul J Vanderwood Mark Overmyer Vel zquez Pamela Voekel and Edward Wright Rios **Religious Diversity in Post-Soviet Society** Milda Ališauskiene, Ingo W. Schröder, 2016-04-08 Since the end of state repression against religion two major processes have taken place in the formerly socialist countries historically dominant churches strive to reassert their position in society while new religious groups and ideas from various parts of the world are proliferating This generates pluralism of religious communities and individual religious attitudes Religious Diversity in Post Soviet Society presents the first collection of ethnographies of this new religious diversity for Lithuania a country that has a long history of a dominant Catholic Church The authors reveal how Catholicism has become increasingly diversified and other religions Charismatic Protestantism Baltic Paganism Eastern religions and other alternative spiritualities are claiming their space in the religious field The Broken Village Daniel R. Reichman, 2011-11-15 In The Broken Village Daniel R Reichman tells the story of a remote village in Honduras that transformed almost overnight from a sleepy coffee growing community to a hotbed of undocumented migration to and from the United States The small village called here by the pseudonym La Quebrada was once home to a thriving coffee economy Recently it has become dependent on migrants working in distant places like Long Island and South Dakota who live in ways that most Honduran townspeople struggle to comprehend or explain Reichman explores how the new migration economy has upended cultural ideas of success and failure family dynamics and local politics During his time in La Quebrada Reichman focused on three different strategies for social reform a fledgling coffee cooperative that sought to raise farmer incomes and establish principles of fairness and justice through consumer activism religious campaigns for personal morality that were intended to counter the corrosive effects of migration and local discourses about migrant greed that labeled migrants as the cause of social crisis rather than its victims All three phenomena had one common trait They were settings in which people presented moral visions of social welfare in response to a perceived moment of crisis The Broken Village integrates sacred and secular ideas of morality legal and cultural notions of justice to explore how different groups define social progress

Migrating Faith Daniel Ramírez,2015-09-14 Daniel Ram rez s history of twentieth century Pentecostalism in the U S Mexico borderlands begins in Los Angeles in 1906 with the eruption of the Azusa Street Revival The Pentecostal phenomenon characterized by ecstatic spiritual practices that included speaking in tongues perceptions of miracles interracial mingling and new popular musical worship traditions from both sides of the border was criticized by Christian theologians secular media and even governmental authorities for behaviors considered to be unorthodox and outrageous Today many scholars view the revival as having catalyzed the spread of Pentecostalism and consider the U S Mexico borderlands as one of the most important fountainheads of a religious movement that has thrived not only in North America but worldwide Ram rez argues that because of the distance separating the transnational migratory circuits from domineering arbiters of religious and aesthetic orthodoxy in both the United States and Mexico the region was fertile ground for the religious innovation by which working class Pentecostals expanded and changed traditional options for practicing the faith Giving special attention to individuals and families firsthand accounts and tracing how a vibrant religious music culture tied transnational communities together Ram rez illuminates the interplay of migration mobility and musicality in Pentecostalism s global boom
