Speaking in the Past Tense Herb Wyile,2006-12-15 Speaking in the Past Tense participates in an expanding critical dialogue on the writing of historical fiction providing a series of reflections on the process from the perspective of those souls intrepid enough to step onto what is practically by definition contested territory Herb Wyile from the Introduction The extermination of the Beothuk the exploration of the Arctic the experiences of soldiers in the trenches during World War I the foibles of Canada s longest serving prime minister the Ojibway sniper who is credited with 378 wartime kills these are just some of the people and events discussed in these candid and wide ranging interviews with eleven authors whose novels are based on events in Canadian history These sometimes startling conversations take the reader behind the scenes of the novels and into the minds of their authors Through them we explore the writers motives for writing the challenges they faced in gathering information and presenting it in fictional form the sometimes hostile reaction they faced after publication and perhaps most interestingly the stories that didn t make it into their novels Speaking in the Past Tense provides fascinating insights into the construction of national historical narratives and myths both those familiar to us and those that are still being written

Letters to Doubting Thomas C. Stephen Layman,2006-10-16 When people encounter an argument for or against God s existence it often raises more questions than it answers In Letters to Doubting Thomas C Stephen Layman offers a fresh insightful approach to the issue of God s existence a way to organize what can seem like a blizzard of claims and concepts

bringing clarity to a debate often mired in confusion Layman explores the evidence for the existence of God in a series of fictionalized letters between two characters Zachary a philosopher and Thomas an old college friend who appeals to Zach for help in sorting out his thoughts about God As their correspondence grows Zachary leads Thomas through an informal and highly readable comparison of Naturalism the belief that there is no God and that ultimate reality is physical reality and Theism the idea that there is an almighty perfectly good God In engaging letters that break down complex philosophical arguments into easily digestible bits the two friends delve into such weighty topics as the reliability of religious experience various arguments for God s existence such as the cosmological design and moral arguments the question of free will and the problem of evil A piece at a time they build an argument that shows that Theism on balance provides a better explanation of the world and human life than does Naturalism Here then is a highly accessible account of the major arguments for and against the existence of God capturing some of the best new insights of modern philosophy in a marvelously clear and engaging format **Mind** ,1923 *The History of Philosophy from Thales to Comte* George Henry Lewes,Lewes,1880
