Contemporary Cases in Management Shalini Aggarwal, Ashish Gupta, 2024-12-26 Emerging markets, due to their dynamism, resilience, and complexities, are a significant area of study for management theorists and practitioners. This volume brings together case studies from diverse corners of the industry and offers insightful analyses of real-world management challenges and strategies in dynamic environments. The book showcases the diversity of emerging markets that offer unique challenges in finance, marketing, organization, and HR, among others. From family-owned enterprises in India grappling with succession planning to tech startups navigating regulatory uncertainties, these case studies capture the essence of managerial dilemmas in emerging markets. Through rich narratives and rigorous analysis, the essays in this volume provide strategies for organizations to deal with turbulent times, declining sales, and productivity, shrinking investments, or consumer base, and the need for businesses to innovate, expand, and grow. The volume also includes reflections from multiple stakeholders, which not only enriches the learning experience but also fosters a deeper understanding of the complex interplay between management practices and broader socio-economic contexts. This book will be of interest to both students and researchers of business studies, management studies, marketing, finance, and human resources. It will also be a useful resource for professionals working in government agencies and research agencies and for managers in different industries.

Responsible Production and Consumption Pramod K. Mishra, Sameer Prasad, B. Kamaiah, B. Raja Shekhar, Chinmaya Behera, Pratap K. Jena, 2024-11-25 Zero Hunger (SDG 2) and Responsible Consumption and Production (SDG 12) of the United Nations are very crucial aspects for any economy in the world. In terms of Agricultural Sustainability and Food Security, the world should see to it that agriculture is sustainable enough to ensure food security for all its people. While nobody should be deprived of food for whatever reasons, and at the same time, nobody should use the

agricultural resources both inputs and outputs in a manner harmful to the society at large The use of any resources in terms of production and consumption and vice versa should take into account the carbon footprint and greenhouse gas emissions While the producers have a major role in the optimum use of the resources the consumers for whatever items should take into account the responsible consumption practices Since production and consumption are like two sides of a coin complementary to each other any change in one of the aspects will have its repercussions on the other one So it is a collective responsibility of everyone to ensure that things are practiced the way they are supposed to
