Allegories Of Kingship:

Allegories of Kingship Stephen Rupp, 1995-09-15 This study examines issues in politics and political theory in selected works of Pedro Calderón de la Barca 1600-1681 the major dramatist of the middle and later decades of the seventeenth century in Spain By analyzing secular dramas comedias and religious plays autos sacramentales Stephen Rupp demonstrates Calderón's awareness of the ideas and institutions of power in Hapsburg Spain and explores the terms of his intervention in the long debate over the principles of Christian statecraft Through references to Rivadeneira Saavedra Fajardo and Quevedo Rupp describes the anti Machiavellian theory of kingship that informs Calderón's political theater Rupp's argument proceeds from abstract principles of political theory to particular institutions and events at the Hapsburg court Discussion of two comedias *La vida es sueño* and *La cisma de Inglaterra* and five autos *La vida es sueño* *A Dios por razón de Estado* *El maestrazgo del Toisón* *El nuevo palacio del Retiro* and *El lirio y la azucena* demonstrates Calderón's assimilation of true reason of state to providence his attitudes concerning the conciliar system and the regime of the royal favorite or valido and his allegorical treatment of significant state occasions

The Reception of Machiavelli in Early Modern Spain Keith David Howard, 2014 Howard demonstrates that Machiavellian discourse had a profound impact on early modern Spanish prose treatises Arguing against historians of Spanish political thought that have neglected recent developments in our understanding of Machiavelli's contribution to the European tradition the thesis of this book is that Machiavellian discourse had a profound impact on Spanish prose treatises of the sixteenth and seventeenth centuries After reviewing in chapter 1 Machiavelli's ideological restructuring of the language of European political thought in chapter 2 Dr Howard shows how before his works were prohibited in Spain in 1583 Spaniards such as Fadrique Furi Ceriol and Balthazar Ayala used Machiavelli's new vocabulary and theoretical framework to develop an imperial discourse that would be compatible with a militant understanding of Catholic Christianity In chapters 3 4 and 5 he demonstrates in detail how Giovanni Botero Pedro de Ribadeneyra and their imitators in the anti Machiavellian reason of state tradition in Spain attack a straw figure of Machiavelli that they have invented for their own rhetorical and ideological purposes while they simultaneously incorporate key Machiavellian concepts into their own advice Keith David Howard is an Assistant Professor of Spanish at Florida State University

Monarchy, Political Culture, and Drama in Seventeenth-Century Madrid Jodi Campbell, 2016-04-15 In early modern Spain theater reached the height of its popularity during the same decades in which Spanish monarchs were striving to consolidate their power Jodi Campbell uses the dramatic production of seventeenth century Madrid to understand how ordinary Spaniards perceived the political developments of this period Through a study of thirty three plays by four of the most popular playwrights of Madrid Pedro Calderón de la Barca Francisco de Rojas Zorrilla Juan de Matos Fragoso and Juan Bautista Diamante Campbell analyzes portrayals of kingship during what is traditionally considered to be the age of absolutism and highlights the differences between the image of kingship cultivated by the monarchy and that presented on

Spanish stages A surprising number of plays performed and published in Madrid in the seventeenth century Campbell shows featured themes about kingship debates over the qualities that make a good king tests of a king's abilities and stories about the conflicts that could arise between the personal interests of a king and the best interest of his subjects Rather than supporting the absolutist and centralizing policies of the monarchy popular theater is shown here to favor the idea of reciprocal obligations between subjects and monarch This study contributes new evidence to the trend of recent scholarship that revises our views of early modern Spanish absolutism arguing for the significance of the perspectives of ordinary people to the realm of politics **Ideologies of History in the Spanish Golden Age** Anthony J. Cascardi, 2010-11-01 Spanish Literature: Oxford Bibliographies Online Research Guide

Hilaire Kallendorf, 2010-06 This ebook is a selective guide designed to help scholars and students of Islamic studies find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs Written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated related This ebook is a static version of an article from Oxford Bibliographies Online Renaissance and Reformation a dynamic continuously updated online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study of European history and culture between the 14th and 17th centuries Oxford Bibliographies Online covers most subject disciplines within the social science and humanities for more information visit www.oxfordbibliographies.com *Essays on Nima Yushij* Ahmad Karimi-Hakkak, Kamran Talattof, 2004-08-01

Situating Nima's life firmly within the context of 20th century Iranian history this book contributes to an emerging trend in literary scholarship on Persian literature that views Persian poetry as a living and constantly evolving tradition rather than an icon of some fading glory Gendering the Crown in the Spanish Baroque Comedia María Cristina Quintero, 2016-04-15 The Baroque Spanish stage is populated with virile queens and feminized kings This study examines the diverse ways in which seventeenth century comedias engage with the discourse of power and rulership and how it relates to gender A privileged place for ideological negotiation the comedia provided negative and positive reflections of kingship at a time when there was a perceived crisis of monarchical authority in the Habsburg court Author Mar a Cristina Quintero explores how playwrights such as Pedro Calder n de la Barca Tirso de Molina Antonio Coello and Francisco Bances Candamo taking inspiration from legend myth and history repeatedly staged fantasies of feminine rule at a time when there was a concerted effort to contain women's visibility and agency in the public sphere The comedia's preoccupation with kingship together with its obsession with the representation of women and women's bodies renders the question of royal subjectivity inseparable from issues surrounding masculinity and femininity Taking into account theories of performance and performativity within a historical context this study investigates how the themes imagery and language in plays by Calder n

and his contemporaries reveal a richly paradoxical presentation of gendered monarchical power The SAGE Handbook of Qualitative Geography Dydia DeLyser, 2010 The process of learning qualitative research has altered dramatically and this Handbook explores the growth change and complexity within the topic and looks back over its history to assess the current state of the art and indicate possible future directions Moving beyond textbook rehearsals of standard issues the book examines key methodological debates and conflicts approaching them in a critical discursive manner **Majesty and Humanity** Alban K. Forcione, 2009-01-15 In reinterpreting two of Lope de Vega's plays Forcione places his texts in the context of political and institutional history philosophy theology and art history In doing so he shows how Spanish theatre anticipated the decisive changes in human consciousness that characterized the ascendance of the absolutist state

Role-play and the World as Stage in the Comedia Jonathan Thacker, 2002-01-01 The theatrum mundi metaphor was well known in the Golden Age and was often employed notably by Calderón in his religious theatre However little account has been given of the everyday exploitation of the idea of the world as stage in the mainstream drama of the Golden Age This study examines how and why playwrights of the period time and again created characters who dramatize themselves who reinvent themselves by performing new roles and inventing new plots within the larger frame of the play The prevalence of metatheatrical techniques among Golden Age dramatists including Lope de Vega Tirso de Molina Calderón de la Barca and Guillén de Castro reveals a fascination with role playing and its implications Thacker argues that in comedy these playwrights saw role playing as a means by which they could comment on and criticize the society in which they lived and he reveals a drama far less supportive of the social status quo in Golden Age Spain than has been traditionally thought to be the case

As recognized, adventure as competently as experience just about lesson, amusement, as well as covenant can be gotten by just checking out a ebook **Allegories Of Kingship** as a consequence it is not directly done, you could say you will even more on the subject of this life, re the world.

We provide you this proper as capably as easy exaggeration to get those all. We come up with the money for Allegories Of Kingship and numerous books collections from fictions to scientific research in any way. in the midst of them is this Allegories Of Kingship that can be your partner.
