shaping raw inspiration into something tangible useful and extraordinary With warmth wit and clarity she demystifies creativity and shows how to bring your best ideas to life whether you re tackling a project at work launching something new or simply reimagining what s possible in your daily life **Idea Alchemy** is your guide to the magic of innovation proving that every thought holds the potential for transformation

People and Wildlife Becky Thomas,Mark Fellowes,2020-10-07 We live in a world filled with fascinating plants and animals each adapted to environments that range from freezing arctic tundras to humid tropical forests Our world is also home to more than seven billion people a number added to every day Each of us puts pressure on the environment and the space left for wildlife At its most extreme every aspect of the environment has been influenced by people s choices and nowhere more so than the urban areas where most people live Urban areas are full of people playing and working They are also full of animals and plants often living secret lives that go unnoticed Our interactions with wildlife are often determined by our desire to get close to nature or sometimes our fear of it When people think of urban areas they mostly imagine big cities but these areas extend into more suburban environments made up of houses gardens roads and parks These landscapes are often filled with wildlife that represent a combination of local plants and animals with species from other places that are planted or escaped creating a unique habitat linked directly with the people who live there There are many challenges for the species found here but many opportunities too People can individually affect the environment for example by owning pet cats who are like mini tigers preying on the local birds or by leaving out trash and drawing in herds of peccaries or families of raccoons But it is in combination that we have the greatest impact For example houses and street lamps generate lots of light noise which can distract moths from their usual habits and the roads and streets we build divide up the habitat making it harder for wildlife to move around and find resources We in turn are also affected by the environment living in nature filled areas can positively affect our health and our well being yet interactions with certain species like ticks or mosquitoes can bring disease or discomfort Scientists and citizen scientists expert members of the public around the world are exploring our interactions with wildlife and nature in urban areas and here we explore some of this research This collection of articles aims to highlight some of the amazing wildlife that live alongside us and we explore how we can positively and negatively affect these species

You Can Change the World Lucy Bell,2023-12-14 You Can Change the World empowers kids to make changes in their lives and communities with the powerful message that anyone can make a difference in the world This colorfully illustrated book is packed with information ideas and activities for everyday sustainability like mending clothes composting and avoiding single use plastics Interspersed throughout are features on children around the globe who are making a difference such as Greta Thunberg or Solli Raphael reminding kids that ordinary people can spark extraordinary change
