Models for Sustainable Framework in Luxury Fashion Subramanian Senthilkannan Muthu, 2018-02-21 This book highlights the models developed to create a sustainable framework suitable for luxury in the textile sector and the innovative attempts in the luxury fashion and fabrics industry. The three chapters in this book discuss these issues by means of case studies and the future of such models.

Fashion for the Common Good Isabel Cantista, Elaine L. Ritch, Linda Shearer, Silvia Pérez-Bou, Sonika Soni Khar, 2024-04-01 This book presents state of the art research from around the world on how the fashion industry can help in the transition towards a sustainable model of development and a circular economy. It presents the proceedings of the 10th Global Fashion Conference held in 2023 which since its creation in 2008 has endeavoured to contribute to the recognition of a sectoral innovation system which may lead to regional and transnational policies that promote innovation for the sake of sustainability. Presenting cutting edge research on how fashion contributes to the common good, the book covers core topics including the circular economy, social innovation, fashion law and sustainability, sustainable finance and education for sustainability, offering a meaningful contribution to the UN Sustainable Development Goals.

DESIGN-DECODED 2021 Juaini Jamaludin, Hasnul Azwan Azizan, Neesa Ameera Mohamed Salim, Normaziana Hassan, Azhari Md. Hashim, 2022-03-25 It is a pleasure to welcome you to the proceedings of the 2nd International Conference on Design Industries and Creative Culture Design Decoded 2021 which has been organised by the College of Creative Arts previously renowned as Faculty of Art Design, Universiti Teknologi MARA Kedah Branch. Design Decoded 2021 analysed and discussed how art design and education may have an influence, create a societal difference and contribute to the economy as well as how we think, live, work and learn. The main topic of this proceeding was Decrypt Your Visual Creativity which consisted of 65 articles about design thinking, interior design, art and design management, industrial design, education in design, creativity and innovation, sustainable art and design, visual communication, new media, graphic and digital media, visual culture, design practice, art history, art and creative community and methodology in design, creativity. We are truly thanking you to our four keynote speakers: Emeritus Prof Dr T W Allan Whitfield, Prof Dr Khairul Aidil Azlin Abdul Rahman, Dr Nurul Ayn Ahmad Sayuti and Mr Firdaus Khalid for their constant support and guidance. Finally, we would like to express our heartfelt gratitude to all colleagues in the steering and organising committee for their cooperation in administering and organising the conference as well as reviewers for their intellectual effort and dedication to reviewing papers.

Circular Economy and Green Transition in the Global South Anwesha Borthakur, Pardeep Singh, 2025-09-26 This book is an attempt to address circular economy and green transition potentials and implications with a particular focus on the Global South. Circular economy and green transition have been central themes of environmental policymaking during the recent decades both in the Global North and the Global South. However, the focus and attention on the topics among the research community have been relatively recent in the emerging economies and developing countries in the Global South. The

term circular economy refers to an economic model that aims to minimize waste make the most of resources and promote sustainability throughout the entire lifecycle of products and materials Unlike the traditional linear economy which follows a take make dispose pattern the circular economy seeks to create a closed loop system where resources are reused and recycled The term green transition on the other hand refers to a comprehensive and systemic shift from an economy that heavily relies on fossil fuels and environmentally destructive practices to one that is sustainable eco friendly and focused on addressing global climate change implications Green transition is often considered as a critical approach to achieve a sustainable future and mitigate the adverse impacts of climate change Circular economy and the green transition are complementary approaches that when integrated can lead to a robust sustainable global economy Both concepts acknowledge the interconnectedness of environmental economic and social facets and highlight the significance of a systematized change to achieve a better future We can consider circular economy as a subset of green transition where both share the overarching goal of fostering sustainability and mitigating detrimental environmental impacts **ESG**
