Aspects Of Central African History:

Aspects of Central African History T. O. Ranger, 1968 '98 ██████████, 1999 **Aspects of Central African History** University College, Dar es Salaam. Institute of Education, Tanzania. Wizara ya Elimu, Historical Association of Tanzania, 1968 In 1966 the Ministry of Education in Dar es Salaam asked the History Department of the University College Dar es Salaam if they could do anything to help teachers prepare for the central African section of the second paper of the new School Certificate Syllabus In January 1967 a Conference on aspects of the history of central Africa was held at the College under the auspices of the Institute of Education the Ministry and the Historical Association of Tanzania This book consists of the papers prepared for the Conference Preface p v **Aspects of Central African history, ed , Themes in the Christian History of Central Africa** T. O. Ranger, John Weller, 2024-03-29 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1975 The Zambesian Past Eric Stokes, 1966 **Encyclopedia of African History 3-Volume Set** KEVIN SHILLINGTON., 2005 Ivory and Slaves in East Central Africa Edward A. Alpers, 2023-11-10 Professor Shepperson says of this regional economic history of East Central Africa that it is a refreshing combination of a scholarly survey of a relatively new field of African history and of a contribution to an important controversy on African underdevelopment Alpers has written a history of the penetration and changing character of international trade in East Central Africa from the fifteenth to the later nineteenth century His study focuses on a vast and little known region that includes southern Tanzania northern Mozambique and Malawi with extension north along the Swahili coast and west as far as the Lunda state of the Mwata Kazembe He examines both the competition between traders and their internal impact on the various societies of East Central Africa Alpers main concern is to demonstrate that the historical roots of underdevelopment in the area are to be found in the system of international trade which was initiated by Arabs in the fifteenth century seized and extended by the Portuguese in the sixteenth and seventeenth centuries dominated by a complex mixture of Indian Arab and Western capitalisms in the nineteenth century Thus this readable and original book places East African trading systems within the larger Western Indian Ocean system and in the world capitalist system This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1975 Death, Belief and Politics in Central African History Kalusa, Walima T., Vaughan, Megan, 2013-11-11 In this set of essays Walima T Kalusa and Megan Vaughan explore themes in the history of death in Zambia and Malawi from the late nineteenth century to the present

day Drawing on extensive archival and oral historical research they examine the impact of Christianity on spiritual beliefs the racialised politics of death on the colonial Copperbelt the transformation of burial practices the histories of suicide and of maternal mortality and the political life of the corpse

Women's Authority and Society in Early East-Central Africa

Christine Saidi, 2010 This study of more than two thousand years of African social history weaves together evidence from historical linguistics archaeology comparative ethnography oral tradition and art history to challenge the assumptions that all African societies were patriarchal and that the status of women in precolonial Africa is beyond the scope of historical research In East Central Africa women played key roles in technological and economic developments during the long precolonial period Female political leaders were as common as male rulers and women especially mothers were central to religious ceremonies and beliefs These conclusions contribute a new and critical element to our understanding of Africa s precolonial history Book Jacket
