Assimilation and Association in French Colonial Theory, 1890-1914 William Lane-Petter, 1961

Assimilation and Association in French Colonial Theory Raymond F. Betts, 1969 Assimilation and Association in French Colonial Theory Raymond Frederick Betts (historien)., 1961 *Assimilation and Association in French Colonial Theory, 1890-1914* Columbia University, Raymond F. Betts, 1955 *Geography and Imperialism, 1820-1940* Morag Bell, 1995 An examination of how European imperialism was facilitated and challenged from 1820 to 1920 With reference to geographical science the authors add to multi disciplinary debates on the complex cultural ideological and intellectual bases of European imper

The Invention of Decolonization Todd Shepard, 2006 In this account of the Algerian War's effect on French political structures and notions of national identity Todd Shepard asserts that the separation of Algeria from France was truly a revolutionary event with lasting consequences for French social and political life For more than a century Algeria had been legally and administratively part of France after the bloody war that concluded in 1962 it was other its eight million Algerian residents deprived of French citizenship while hundreds of thousands of French pieds noirs were forced to return to a country that was never home This rupture violated the universalism that had been the essence of French republican theory since the late eighteenth century Shepard contends that because the amputation of Algeria from the French body politic was accomplished illegally and without explanation its repercussions are responsible for many of the racial and religious tensions that confront France today In portraying decolonization as an essential step in the inexorable tide of history the French state absolved itself of responsibility for the revolutionary change it was effecting It thereby turned its back not only on the French of Algeria Muslims in particular but also on its own republican principles and the 1958 Constitution From that point onward debates over assimilation identity and citizenship once focused on the Algerian province colony have troubled France itself In addition to grappling with questions of race citizenship national identity state institutions and political debate Shepard also addresses debates in Jewish history gender history and queer theory

The French Imperial Nation-State Gary Wilder, 2020-05-08 France experienced a period of crisis following World War I when the relationship between the nation and its colonies became a subject of public debate The French Imperial Nation State focuses on two intersecting movements that redefined imperial politics colonial humanism led by administrative reformers in West Africa and the Paris based Negritude project comprising African and Caribbean elites Gary Wilder develops a sophisticated account of the contradictory character of colonial government and examines the cultural nationalism of Negritude as a multifaceted movement rooted in an alternative black public sphere He argues that interwar France must be understood as an imperial nation state an integrated

sociopolitical system that linked a parliamentary republic to an administrative empire An interdisciplinary study of colonial modernity combining French history colonial studies and social theory The French Imperial Nation State will compel readers to revise conventional assumptions about the distinctions between republicanism and racism metropolitan and colonial societies and national and transnational processes *To be Free and French* Lorelle Semley, 2017-07-20 An ambitious new vision of French citizenship from the perspective of Africans and Antilleans living in the colonies and mainland France Lorelle Semley explores the ways in which these colonial subjects used French democratic ideals to demand rights and redefine the meanings of freedom and Frenchness
