Tarik F. Massoud

Birth Of The Present:

The Birth to Presence Jean-Luc Nancy, 1993 The epoch of representation is as old as the West Indeed representation is the West understood as what at once designates and expands its own limits But what comes after the West What comes after representation s disclosure of its own limit The central problem posed in these essays collected from over a decade of work is how in the wake of Western ontologies to conceive the coming the birth that characterizes being We are now at the limit of representation where objects as we experience them have been show to be merely objects of representation or rather of presentation since there is nothing to re present The first part of this book Existence asks how today one can give sense of meaning to existence as such arguing that existence itself as it comes nude into the world must now be our sense In examining what this birth to presence might be we should not ask what presence is rather we should conceive presence as presence to someone including to presence itself This birth is not the constitution of an identity but the endless departure of an identity from and from within its other or others Its coming is not desire but jouissance the joy of averring oneself to be continually in the state of being born a rejoicing of birth a birth of rejoicing The second section Poetry asks What art exposes this In writing in the voice in painting And what if art is exposed to it How does it inscribe or rather exscribe in a term the book develops the coming existence as such The author s trajectory in this book crosses those of Hegel Schlegel Baudelaire Nietzsche Freud and Heidegger in their comments on art and politics existence and corporeality everyday life and its modes of existence and ecstasy An analysis that dares this crossing involves all the varied accounts of existence political as well as philosophical and all the realms of poverty The New York Times Current History ,1917 *Current History* ,1916
