Birth Passages Maternity And Nostalgia Antiquity To Shakespeare

Curtis Perry, John Watkins

Birth Passages Maternity And Nostalgia Antiquity To Shakespeare:

Birth Passages Theresa M. Krier, 2001 *Birth Passages* offers a provocative and eloquent challenge to the nostalgia for the maternal sometimes influenced by classic Freudian theory which pervades many discourses Theresa M Krier suggests an alternative to the common characterizations of the maternal as a force inspiring both desire and dread a force that must be repressed if subjectivity and culture are to be established Instead drawing on the work of Melanie Klein D W Winnicott and Luce Irigaray Krier seeks to establish a new model of the relationship between mother and infant one in which birth is seen not as the tragic ending to the prenatal union but rather as the child's claiming both distance from and proximity to this parent Krier's insightful readings of poetic works from antiquity the Middle Ages and the Renaissance show these texts in opposition to their cultures insistent nostalgia for the maternal Their authors she maintains recognize such longing as a symptom of a glamorous but false and disabling fantasy In her analysis of the Song of Songs Lucretius's *De rerum natura* Chaucer's *Parlement of Foules* Spenser's *Amoretti* and *Faerie Queene* and Shakespeare's *Love's Labor's Lost* and *The Winter's Tale* Krier details how the writings represent the intersubjective nature of birth

Birth Passages Theresa M. Krier, 2001 *Birth Passages* offers a provocative and eloquent challenge to the nostalgia for the maternal sometimes influenced by classic Freudian theory which pervades many discourses Theresa M Krier suggests an alternative to the common characterizations of the maternal as a force inspiring both desire and dread a force that must be repressed if subjectivity and culture are to be established Instead drawing on the work of Melanie Klein D W Winnicott and Luce Irigaray Krier seeks to establish a new model of the relationship between mother and infant one in which birth is seen not as the tragic ending to the prenatal union but rather as the child's claiming both distance from and proximity to this parent Krier's insightful readings of poetic works from antiquity the Middle Ages and the Renaissance show these texts in opposition to their cultures insistent nostalgia for the maternal Their authors she maintains recognize such longing as a symptom of a glamorous but false and disabling fantasy In her analysis of the Song of Songs Lucretius's *De rerum natura* Chaucer's *Parlement of Foules* Spenser's *Amoretti* and *Faerie Queene* and Shakespeare's *Love's Labor's Lost* and *The Winter's Tale* Krier details how the writings represent the intersubjective nature of birth

Shakespeare and Contemporary Fiction Barbara L. Estrin, 2012 As the first book to use fiction as theory *Shakespeare and Contemporary Fiction* reads backward to demonstrate how recent novelists redeploy founding and lyric plots to uncover a Shakespeare who similarly challenges the mythological homogeneity that scripts us

Pregnant Bodies from Shakespeare to Ford Katarzyna Burzyńska, 2022-03-24 This book explores how the pregnant body is portrayed perceived and enacted in Shakespeare's and his contemporaries drama by means of a phenomenological analysis and a recourse to early modern popular medical discourse on reproduction Phenomenology of pregnancy is a fairly new and radical body of philosophy that questions the post Cartesian chasm of an almost autonomous reason and an enclosed and self sufficient male body as foundations of identity Early modern drama as is argued was written and staged at the backdrop of

revolutionary changes in medicine and science where old and new theories on the embodied self clashed In this world where more and more men were expected to steadily grow isolated from their bodies the pregnant body constituted an embattled contradiction Indebted to the theories of embodiment this book offers a meticulous and detailed investigation of a plethora of pregnant characters and their pregnant embodiment in the pre modern works by Shakespeare Middleton Webster and Ford The analysis in each chapter argues for an indivisible link between an intensely embodied experience of pregnancy as enacted in space and identity shaping processes resulting in a more acute sense of selfhood and agency Despite seemingly disparate experiences of the selected heroines and the repeated attempts at containment of their unruly bodies the ever transforming and spatial pregnant identities remain loci of embodied selfhood and agency This book provocatively argues that fictional characters experience reflects tangible realities of early modern women while often deflecting the scientific consensus on reproduction in the period

Shakespeare and the Middle Ages Curtis Perry,John Watkins,2009-05-07

Shakespeare and the Middle Ages brings together a distinguished multidisciplinary group of scholars to rethink the medieval origins of modernity Shakespeare provides them with the perfect focus since his works turn back to the Middle Ages as decisively as they anticipate the modern world almost all of the histories depict events during the Hundred Years War and King John glances even further back to the thirteenth century Angevins several of the comedies tragedies and romances rest on medieval sources and there are important medieval antecedents for some of the poetic modes in which he worked as well Several of the essays reread Shakespeare by recovering aspects of his works that are derived from medieval traditions and whose significance has been obscured by the desire to read Shakespeare as the origin of the modern These essays taken cumulatively challenge the idea of any decisive break between the medieval period and early modernity by demonstrating continuities of form and imagination that clearly bridge the gap Other essays explore the ways in which Shakespeare and his contemporaries constructed or imagined relationships between past and present Attending to the way these writers thought about their relationship to the past makes it possible in turn to read against the grain of our own teleological investment in the idea of early modernity A third group of essays reads texts by Shakespeare and his contemporaries as documents participating in social cultural transformation from within This means attending to the way they themselves grapples with the problem of change attempting to respond to new conditions and pressures while holding onto customary habits of thought and imagination Taken together the essays in this volume revisit the very idea of transition in a refreshingly non teleological way

Maternity and Romance Narratives in Early Modern England Karen Bamford,Naomi J. Miller,2016-05-06

Though recent scholarship has focused both on motherhood and on romance literature in early modern England until now no full length volume has addressed the notable intersections between the two topics This collection contributes to the scholarly investigation of maternity in early modern England by scrutinizing romance narratives in various forms considering motherhood not as it was actually lived but as it was figured in the fantasy world of romance by authors ranging from

Edmund Spenser to Margaret Cavendish Contributors explore the traditional association between romance and women both as readers of fiction and as tellers of old wives tales as well as the tendency of romance plots with their emphasis on the family and its reproduction to foreground matters of maternity Collectively the essays in this volume invite reflection on the uses to which Renaissance culture put maternal stereotypes the virgin mother the cruel step dame as well as the powerful fears and desires that mothers evoke assuage and sometimes express in the fantasy world of romance

Performing Maternity in Early Modern England Kathryn R. McPherson, 2016-12-05 Performing Maternity in Early Modern England features essays that share a common concern with exploring maternity's cultural representation performative aspects and practical consequences in the period from 1540-1690 The essays interrogate how early modern texts depict fertility conception delivery and gendered constructions of maternity by analyzing a wealth of historical documents and images in conjunction with dramatic and non-dramatic literary texts They emphasize that the embodied repeated and public nature of maternity defines it as inherently performative and ultimately central to the production of gender identity during the early modern period

Shakespearean Maternities Chris Laoutaris, 2008-06-20 This study explores maternity in the disciplines of early modern England Placing the reproductive female body centre stage in Shakespeare's theatre Laoutaris ranges beyond the domestic sphere in order to recuperate the wider intellectual epistemological and archaeological significance of maternity to the Renaissance imagination Focusing on anatomy in Hamlet natural history in The Tempest demonology in Macbeth and heraldry in Antony and Cleopatra this book reveals the ways in which the maternal body was figured in and in turn contributed towards the re-conceptualisation of bodies of knowledge Laoutaris argues that Shakespeare resists a monolithic concept of motherhood presenting instead a range of contested maternities which challenge the distinctive ways of knowing these early disciplines worked to impose on the order of created nature

Shakespeare, National Poet-Playwright Patrick Cheney, 2004-11-25 Shakespeare National Poet Playwright is an important book which reassesses Shakespeare as a poet and dramatist Patrick Cheney contests critical preoccupation with Shakespeare as a man of the theatre by recovering his original standing as an early modern author he is a working dramatist who composes some of the most extraordinary poems in English The book accounts for this form of authorship by reconstructing the historical preconditions for its emergence in England as in Europe including the building of the commercial theatres and the consolidation of the printing press Cheney traces the literary origin to Shakespeare's favourite author Ovid who wrote the Amores and Metamorphoses alongside the tragedy Medea Cheney also examines Shakespeare's literary relations with his contemporary authors Edmund Spenser and Christopher Marlowe The book concentrates on Shakespeare's freestanding poems but makes frequent reference to the plays and ranges widely through the work of other Renaissance writers

Shakespeare's Literary Authorship Patrick Cheney, 2008-06-26 This book considers Shakespeare as a literary figure analysing his full professional career both poetry and plays
