fundamentals dynamics complex interactions opportunities and challenges of recycling within the larger picture of a circular system Describes the state of the art and lessons learned to understand future challenges in recycling of a wide variety of products materials and waste flows Introduces the tools and practices to understand the opportunities and limitations of recycling in the context of a circular economy **Coworking Spaces** Janet Merkel,Dimitris Pettas,Vasilis

Avdikos,2023-11-07 This contributed volume considers the emergence of coworking as centered in labor issues More specifically its chapters consider it as a coping mechanism in the worldwide rise of independent modes of work i e self employment that leaves more and more workers exposed to precarity as they must organize and manage their own labor Grounded in this perspective this volume aims to understand the transformative social and political potentials emerging through coworking as a social and spatial practice There is a distinct lack of discussion within coworking research on the emancipatory potentials of coworking and if it is discussed more cautionary views prevail highlighting the ambivalence of coworking spaces both as a space of alternative economic practices and as integrated into market economies The aims of this collection are twofold First it aims to make visible the plurality of existing practices around shared resources in coworking and the assemblages of human and non human actors as agents of change associated with coworking and the re organization of work and labor power And second it aims to develop a more emancipatory narrative for coworking and the role of coworking spaces for workers but also the different spatial contexts in which these spaces are situated A narrative that does not emphasize entrepreneurship or coworking as the epitome of the neoliberal entrepreneurial self as in the dominant interpretations in the current research but rather one that centers coworking in the creation of meaningful careful social relationships supporting empathy and an ethics that recognizes mutual interdependencies and builds a foundation for social change So it is about alternative narratives emancipation politics and the wider social role that coworking spaces might play in neighborhoods cities or beyond because they are crucial contexts for the formation and maintenance of social relations With this specific direction this collection aims to bring coworking research into a fruitful dialog with other research fields such as sociology of work feminist perspectives on care alternative and diverse economies post capitalist transformation critical geography positioning coworking within a range of progressive alternatives in the articulation of economic and social relationships *Awakening the Management of Coworking Spaces* Ricarda B. Bouncken,2023-01-24 In *Awakening the Management of Coworking Spaces* the chapter authors combine a scientific approach with managing implications developing theoretic constructs reporting qualitative and quantitative findings about challenges potentials effects managerial solutions and success stories **European Narratives on Remote Working and Coworking During the COVID-19 Pandemic** Mina Akhavan,Marco Hölzel,Divya Leducq,2023-05-02 This open access book offers a multidisciplinary and comprehensive perspective regarding the immediate and long term effects of the Covid 19 pandemic on coworking spaces in the European Region The current pandemic has imposed several effects on work and spaces for work Some are immediate effects and will

last for a short time such as the closing down of the space some will last longer namely the reorganisation of the space to meet the physical distancing and some will stay for a long time remote working and hybrid working Although the literature on coworking spaces and the effects of the pandemic is growing fast empirical studies are yet limited Within this context this book seeks a twofold aim i to contribute to the fast growing literature on coworking space and their effects at different scales ii to present a multidisciplinary perspective about the effects of the yet lasting Corona pandemic effects on the patterns of remote working and consequently on coworking spaces as the most diffused form of new working spaces

Digitalization of Work Emilie Vayre, 2022-06-08 Digitalization of Work brings together researchers and international experts whose work and practices are based on a variety of disciplines such as work and organizational psychology social psychology ergonomics communication and information sciences and management sciences This book closely examines the challenges associated with recent or emerging ways of working related to the digitalization of work It acts as a directory of contributions that enrich recent thought and approaches to the deployment and accompaniment of the ways in which work is organized including practices and environments likely to gain relevance in coming years remote working and management coworking for salaried employees flexible office spaces working from home and nomadism

United States Government Organization Manual, 1963

Handbook of Construction Project Management Deepak Bajaj, 2025-10-29 This handbook is designed to serve as a comprehensive guide tailored to managing construction projects within the unorganized sector which is often characterized by small scale informal operations that lack structured management practices This handbook places a special emphasis on emerging economies where the unorganized sector plays a significant role in the construction industry This book aims to provide a robust foundation in construction project management by covering essential principles and practices necessary for effective project management It focuses on offering practical solutions and strategies to improve project delivery cost management and operational efficiency within the unorganized sector Additionally the book emphasizes sustainability and the integration of innovative technologies promoting green practices and digital transformation By adopting a holistic approach it incorporates socioeconomic considerations stakeholder engagement and capacity building to foster improvements across the sector Real world case studies and examples are included to illustrate the successful application of various methodologies and highlight lessons learned Content from this book can also be used to supplement classroom teaching for courses related construction project management and the building construction profession aimed and practicing building engineers construction professionals and even architects The contents of this book will be useful to researchers academics and practitioners alike
