Arbutus Madrone Files Reading The Pacific Northwest:

The Arbutus/Madrone Files Laurie Ricou, 2002 The first book length commentary on twentieth century Pacific Northwest writing The Arbutus Madrone Files explores the dynamics of the Pacific Northwest Laurie Ricou's meditations are dropped into thirteen files such as the Island File the Salmon File and inevitably the Rain File Resonant quotations poetry song lyrics and art from the region enhance Ricou's own readings which move from an academic perspective on the narratives of bio region toward more personal reflections on home and the local

The Arbutus/Madrone Files Laurence Ricou, 2002 This lively and perceptive look at the literature of the U S and Canadian Pacific Northwest explores the dynamics of the cross border region using resonant quotations poetry song lyrics and art to demonstrate and enhance Laurie Ricou's critical readings and ideas

Nature's Northwest William G. Robbins, Katrine Barber, 2011-04-15 At the beginning of the twentieth century the greater Northwest was ablaze with change and seemingly obsessed with progress The promotional literature of the time praising railroads population increases and the growing sophistication of urban living however ignored the reality of poverty and ethnic and gender discrimination During the course of the next century even with dramatic changes in the region one constant remained inequality With an emphasis on the region's political economy its environmental history and its cultural and social heritage this lively and colorful history of the Pacific Northwest defined here as Oregon Washington Idaho Montana and southern British Columbia places the narrative of this dynamic region within a national and international context Embracing both Canadian and American stories in looking at the larger region renowned historians William Robbins and Katrine Barber offer us a fascinating regional history through the lens of both the environment and society Understanding the physical landscape of the greater Pacific Northwest and the watersheds of the Columbia Fraser Snake and Klamath rivers sets the stage for understanding the development of the area Examining how this landscape spawned sawmills fish canneries railroads logging camps agriculture and shared immigrant and ethnic traditions reveals an intricate portrait of the twentieth century Northwest Impressive in its synthesis of myriad historical facts this first rate regional history will be of interest to historians studying the region from a variety of perspectives and an informative read for anyone fascinated by the story of a landscape rich in diversity natural resources and Native culture

On Sacred Ground Nicholas O'Connell, 2011-10-01 On Sacred Ground explores the literature of the Northwest the area that extends from the Pacific Ocean to the Rocky Mountains and from the forty ninth parallel to the Siskiyou Mountains The Northwest exhibits astonishing geographical diversity and yet the entire bioregion shares a similarity of climate flora and fauna For Nicholas O'Connell the effects of nature on everyday Northwest life carry over to the region's literature Although Northwest writers address a number of subjects the relationship between people and place proves the dominant one and that has been true since the first tribes settled the region and began telling stories about it thousands of years ago Indeed it is the common thread linking Chief Seattle to Theodore Roethke Narciissa Whitman to Ursula K Le Guin Joaquin Miller to Ivan Doig

Marilynne Robinson to Jack London Betty MacDonald to Gary Snyder Tracing the history of Pacific Northwest literary works from Native American myths to the accounts of explorers and settlers the effusions of the romantics the sharply etched stories of the realists the mystic visions of Northwest poets and the contemporary explosion of Northwest poetry and prose O Connell shows how the most important contribution of Northwest writers to American literature is their articulation of a more spiritual human relationship with landscape Pacific Northwest writers and storytellers see the Northwest not just as a source of material wealth but as a spiritual homeland a place to lead a rich and fulfilling life within the whole context of creation And just as the relationship between people and place serves as the unifying feature of Northwest literature so also does literature itself possess a perhaps unique ability to transform a landscape into a sacred place

The Bioregional Imagination Tom Lynch,Cheryll Glotfelty,Karla Armbruster,2012 Bioregionalism is an innovative way of thinking about place and planet from an ecological perspective Although bioregional ideas occur regularly in ecocritical writing until now no systematic effort has been made to outline the principles of bioregional literary criticism and to use it as a way to read write understand and teach literature The twenty four original essays here are written by an outstanding selection of international scholars The range of bioregions covered is global and includes such diverse places as British Columbia s Meldrum Creek and Italy s Po River Valley the Arctic and the Outback There are even forays into cyberspace and outer space In their comprehensive introduction the editors map the terrain of the bioregional movement including its history and potential to inspire and invigorate place based and environmental literary criticism Responding to bioregional tenets this volume is divided into four sections The essays in the Reinhabiting section narrate experiments in living in place and restoring damaged environments The Rereading essays practice bioregional literary criticism both by examining texts with strong ties to bioregional paradigms and by opening other less obvious texts to bioregional analysis In Reimagining the essays push bioregionalism to evolve by expanding its corpus of texts coupling its perspectives with other approaches or challenging its core constructs Essays in the Renewal section address bioregional pedagogy beginning with local habitat studies and concluding with musings about the Internet In response to the environmental crisis we must reimagine our relationship to the places we inhabit This volume shows how literature and literary studies are fundamental tools to such a reimagining

The Pacific Northwest Raymond D. Gastil,Barnett Singer,2010-04-23 The Pacific Northwest for the purposes of this book mostly Oregon and Washington has sometimes been seen as lacking significant cultural history Home to idyllic environmental wonders the region has been plagued by the notion that the best and brightest often left in search of greater things that the mainstream world was thousands of miles away or at least as far south as California This book describes the Pacific Northwest s search for a regional identity from the first Indian European contacts through the late twentieth century identifying those individuals and groups who at least struggled to give meaning to the Northwest experience It places particular emphasis on writers and other celebrated individuals in the arts detailing how their lives and works both reflected
