Becoming An Ex The Process Of Role Exit:

Becoming an ex Helen Rose Fuchs Ebaugh, 1988 **Becoming an Ex** Helen Rose Fuchs Ebaugh, 2013-11-22 The experience of becoming an ex is common to most people in modern society Unlike individuals in earlier cultures who usually spent their entire lives in one marriage one career one religion one geographic locality people living in today's world tend to move in and out of many roles in the course of a lifetime During the past decade there has been persistent interest in these passages or turning points but very little research has dealt with what it means to leave behind a major role or incorporate it into a new identity Helen Rose Fuchs Ebaugh's pathbreaking inquiry into the phenomenon of becoming an ex reveals the profundity of this basic aspect of establishing an identity in contemporary life Ebaugh is herself an ex having left the life of a Catholic nun to become a wife mother and professor of sociology Drawing on interviews with 185 people Ebaugh explores a wide range of role changes including ex convicts ex alcoholics divorced people mothers without custody of their children ex doctors ex cops retirees ex nuns and perhaps most dramatically transsexuals As this diverse sample reveals Ebaugh focuses on voluntary exits from significant roles What emerges are common stages of the role exit process from disillusionment with a particular identity to searching for alternative roles to turning points that trigger a final decision to exit and finally to the creation of an identity as an ex **Becoming an Ex** is a challenging and influential study that will be of great interest to sociologists mental health counselors members of self help groups such as Alcoholics Anonymous and Parents Without Partners those in corporate settings where turnover has widespread implications for the organization and for anyone struggling through a role exit who is trying to establish a new sense of self **Not for Long** Robert W. Turner II, 2018-07-06 Drawing on personal experience as a former pro and interviews with over 140 current and former NFL players Robert Turner gets behind the bravado to reveal what it means to be an athlete in the NFL and why so many players struggle with life after football **Research in Personnel and Human Resources Management** M. Ronald Buckley, Anthony R. Wheeler, Jonathon R. B. Halbesleben, 2015-06-10 This series publishes monograph length conceptual papers designed to promote theory and research on important substantive and methodological topics in the field of human resources management **Exit** Sara Lawrence-Lightfoot, 2012-05-22 From a renowned sociologist the wisdom of saying goodbye Sara Lawrence Lightfoot is enthralled by exits long farewells quick goodbyes sudden endings the ordinary and the extraordinary There's a relationship she attests between small goodbyes and our ability to master and mark the larger farewells In *Exit* her tenth book she explores the ways we leave one thing and move on to the next how we anticipate define and reflect on our departures our epiphanies that something is over and done with Lawrence Lightfoot a sociologist and a professor at the Harvard Graduate School of Education has interviewed more than a dozen women and men in states of major change and she paints their portraits with sympathy and insight a gay man who finds home and wholeness after coming out a sixteen year old boy forced to leave Iran in the midst of the violent civil war a Catholic priest who leaves the church he has always been

devoted to the life he has loved and the work that has been deeply fulfilling an anthropologist who carefully stages her departure from the field after four years of research and many more. Too often Lawrence Lightfoot believes we exalt new beginnings at the expense of learning from our goodbyes. Exit finds wisdom and perspective in the possibility of moving on and marks the start of a new conversation to help us discover how we might make our exits with purpose and dignity.

Future Survey Annual 1988-1989 Michael Marien, Lane Jennings, 1990-01-01 BMW Z cars have carved a huge reputation for themselves in a very short time. From the revolutionary and innovative Z1 of the late 1980s to the beautiful and exclusive Z8 of more recent times via the popular Z3 and its controversial replacement the Z4, the family has made BMW's name in the increasingly competitive sports car market.

Military Identity and the Transition into Civilian Life Kevin M Wilson-Smith, Philip J Corr, 2019-03-12 This book outlines the relationship between social identity theory and military to civilian transition, examining the mass movement of soldiers back into the civilian occupational world by considering literature specifically on role exit and in relation to the process of full-time military exit. The authors document a range of biographical and experientially focussed case studies to highlight the range of transitions experienced by individuals leaving the armed forces. This book highlights the challenges faced by those transitioning between military and civilian roles through retirement, redundancy, medical discharge or in constant transition as a Reservist. It addresses themes of significant public interest in the light of the recent restructure of the UK full-time and reserve services and following the Iraq and Afghanistan wars.

Encyclopedia of Group Processes and Intergroup Relations John M Levine, Michael A. Hogg, 2010 This two-volume encyclopedia covers concepts from across the spectrum from group phenomena to phenomena influenced by group membership from small group interaction to intergroup relations on a global scale.

From Fear to Faith Joel L. Watts, Travis Milam, 2013-05-13 There's a stereotype of a young, zealous Christian who feels called to the ministry as a pastor, goes to seminary, and then loses his faith as he studies the writings of all those intellectuals and theologians. The stereotype may not be accurate, but there are those who fit this description, not to mention many who leave home for college as passionate Christians and come home unbelievers. More importantly, that stereotype represents a fear—the fear that too much education or contact with those whose beliefs differ from those of a particular community will cause someone to lose their faith. But there's another group, much larger but not heard nearly as frequently. This group consists of people who have gone from the position of fear that creates the stereotype to a position of faith, a faith that is no longer afraid of that outer darkness that looms outside the walls of their religious community. Indeed, they may not perceive any looming darkness at all. *From Fear to Faith*, edited by Travis Milam and Joel L. Watts, gives voice to that too-often unheard group. It is a collection of essays from those who have lived in fear, have faced the looming dark, collided with their share of brick walls, but have come out with a new-found faith and undismayed trust. The journeys of faith presented in this book reveal a group deeply insightful and grounded, minds rich in thriving spirituality, joy, and hope. Where there was once trepidation in asking the tough questions of

human existence of the divine relationship with creation there is now a certain hope found when these authors have struggled to overcome canyons of fear leaving behind a life of black and white certitude to live in a beautiful world of gray They have learned that having questions and even doubts does not reflect a lack of faith Rather hiding in fear from the serious questions indicates a lack of faith in the one who said Don t be afraid Come join in this journey from fear to faith
