Marriage and Society Yaya Sillah, 2014-06-26 I thank God Allah for giving me well being and the courage to complete this seven chapter book And it has also fulfilled my long time desire which is always to share my opinion with different people in different communities However human beings are not complete creatures neither perfect I am not an exception You might disagree with some of my opinions which is very much understandable because no two people will always agree on the same thing all the time However I recommend you and every single reader of this and other books to carefully read every single subject topic very well before making any conclusion to agree or disagree Majority of topics and subjects in this book are based on own personal experience and research And no part of this book is a copy from any other text However I get some of my evidence and reference from the holy Quran and the tradition of Prophet Muhammad You might read a book with an open mind but the real life events that took place and I highlighted some of them are always better to act on something you learn before it could happen to you or you might experience it before and you don't want it to happen to you again I recommend for every reader to follow the best examples which I highlighted majority of which will surely help you Finally if I said something that offended you that is not my intention my real and true intention is to help people in different level of society in regards to issues facing them And sometimes it is almost impossible to make your point without using a reference and example that might sound offensive to someone however that is not the intention of most authors to offend the readers I wish may God Allah make it
