George W. Wilkins, 1969 A cursory consideration of the rather novel theme of the fifth annual Southern Conference on Language Teaching What is a Language Teacher might lead one to suspect that the title was used as a catch all for a variety of topics having little relation to each other or to the theme itself A careful reading of the papers presented at the Conference however will soon dispel any such notion their variety is merely an indication of the many facets of our profession and of the many areas of specialization and concern requisite to the successful professional performance of the language teacher It will be noted that few of the presentations are what could be termed controversial in nature The frankness of exchange and the honesty in approach to problems of language teaching suggest a unified effort on all levels and from many different quarters to achieve our oft quoted goals communication and understanding between people If one were to distill the contents of the papers to a more specific humanistic theme perhaps the underlying attitude evidenced here could be characterized as professional concern Concern on the part of the teacher for the student concern on the part of the members of one culture to communicate with members of another culture concern with effective means of teaching middle class students in ideal surroundings as well as with teaching students from subcultures within our affluent society concern with the successful teaching of the four skills as well as with the training of literary scholars Regretably not all the papers were available for inclusion in these proceedings As a final word about What is a Language Teacher it would be appropriate for each of us to reflect upon those teachers we have had whose concern so influenced us that we are now involved in the same type of professional activity iVaya un maestro **Monatshefte**, 1946 **The Publishers' Trade List Annual**, 1975 Recording for the Blind & Dyslexic, ...
