Novel History Mark C. Carnes, 2004-03-05 Historical fiction is a contradiction in terms History is what happened fiction what did not Yet great novelists have often disregarded this logical difficulty taking up the tools of the historian to explore the shadowy recesses of the past Their labors have brought forth many literary treasures But how accurately do these masterpieces of the imagination reflect the past In Novel History twenty accomplished historians consider this question in relation to some of our most important historical novels Their essays are followed in most instances by a response from the novelist These dialogues illuminate one of the most fascinating and perplexing issues of our time the relation between the real past and our finest imaginative renderings of it Novel History includes essays by distinguished historians such as John Demos Michael Kammen Joan D Hedrick John Lukacs Eugene D Genovese Richard White and Tom Wicker and responses from notable novelists including Gore Vidal John Updike Russell Banks Don DeLillo Larry McMurtry Jane Smiley Madison Smartt Bell William Styron T Coraghessan Boyle William Kennedy Charles Frazier Thomas Fleming and Tim O'Brien Novel History is both a uniquely compelling perspective and a superb collection of literary history

Sublime Desire Amy J. Elias, 2003-04-01 Co winner of the Perkins Prize from the Society for the Study of Narrative Literature Has twentieth century political violence destroyed faith in historical knowledge What happens to historical fiction when history is

seen as either a form of Western imperialism or a form of postmodern simulation In *Sublime Desire* Amy Elias examines our changing relationship to history and how fiction since 1960 reflects that change She contends that postmodernism is a post traumatic imagination that is pulled between two desires the political desire to acknowledge the physical violence of twentieth century history and the yearning for an escape from that history into a ravishing realm of historical certainty Torn between these desires both historical fiction and historiography after 1960 redefine history as the sublime a territory beyond lived experience that is both unknowable and seductive In the face of a failure of Enlightenment ideals about knowledge and the West's own history of violence post World War II history becomes a desire for the secular sacred sublime for awe certainty and belief *Sublime Desire* is an eloquent melding of theory and practice Mixing the canonical with the unexpected Elias analyzes developments in the historical romance genre from Walter Scott's novels to novels written today She correlates developments in the historical romance to similar changes in historiography and philosophy *Sublime Desire* draws engagingly on more than thirty relevant texts from Tolstoy's *War and Peace* to Jeanette Winterson's *Sexing the Cherry* Charles Johnson's *Dreamer* and Charles Frazier's *Cold Mountain* But the book also examines theories of postmodern space and time and defines the difference between postmodern and postcolonial historical perspectives The final chapter draws from trauma theory in Holocaust studies to define how fiction can pose an ethical alternative to aestheticized history while remaining open to pluralism and democratic values In its range and sophistication *Sublime Desire* is a valuable addition to postmodernist studies as well as to studies of the historical romance novel

The South That Wasn't There Michael Kreyling, 2010-11 Once history and the South dwelt in close proximity Representations of the South in writing and on film assumed everybody knew what had happened in place and time to create the South Today our vision of the South varies and there is less there there than ever before In *The South That Wasn't There* Michael Kreyling explores a series of literary situations in which memory and history seem to work in odd and problematic ways Lively and frequently confrontational *The South That Wasn't There* offers a thought provoking reexamination of our literary conceptions about the South

End of Days Karolyn Kinane, Michael A. Ryan, 2014-01-10 The idea of the complete annihilation of all life is a powerful and culturally universal concept As human

societies around the globe have produced creation myths so too have they created narratives concerning the apocalyptic destruction of their worlds This book explores the idea of the apocalypse and its reception within culture and society bringing together 17 essays that explore both the influence and innovation of apocalyptic ideas from classical Greek and Roman writings to the foreign policies of today s United States
