

INTRODUCTION

Shogun, later retitled *Samurai Swords*, was a 1986 classic in Milton Bradley's "Gamemaster Series," which included titles like *Axis & Allies*. In the decades since its release, a third name change rebranded the game to *Ikusa*, but it remains the same territorial control board game it was in 1986.

Veteran players will be familiar with a few common play balance complaints. In our own club, we addressed these popular criticisms with proposed optional rules. There are many extensive and complex revisions available online at popular sites like Board Game Geek, but our philosophy has always been to keep any game changes to a minimum. In that spirit, here are 5 simple tweaks we've used in our club to elevate *Shogun* into a quicker, more strategic board game!

#1 SET UP

The original rules provide for a chaotic set up, with all province cards dealt randomly, but we prefer when players enjoy some degree of strategic decision making. We use the official Quick Start Set Up rules that allow the players to choose some of their starting provinces. Details appear within the original rule booklet on page 33.

When populating armies to during set up, we prefer reducing the Quick Start sizes: 2 Bowman, 4 Swordsmen, 5 Gunners. We start with the number of Spearmen specified in the rules.

#2 Kyoto/Osaka

We like to represent two important historical landmarks in Sengoku-era Japan: (1) Kyoto, the imperial capital; and (2) Osaka, the economic hub. During set up, remove the province card for *Yamashiro* (Kyoto's location) and *Settsu* (Osaka).

A neutral castle defended by 5 Ronin should be placed in each province to start the game. None of the players control it...yet. It can be attacked by any player, at any time. The player who controls Osaka province earns +1 Koku each turn. The player who controls Yamashiro may also hold one extra event card in their hand, beyond the normal limit.

#3 CARDS

We add suspense and strategy to our games with event cards. We were inspired by cards designed by Scott DiBerardino, Michael Schneider, Ken John, and Ray Trochim. Our custom deck appears within this free PDF and can be printed at home. The cards are formatted to fit into mini board game plastic card sleeves.

Shuffle the deck at the start of the game. Each turn, during the Build Phase, each player draws one card from the deck. Cards are secret until played. The card text is self-explanatory, including when and how to implement the card.

There are three types of cards you'll encounter in the deck—objectives, random events, and battle strategies. We recommend players review all the cards before a game to understand what possibilities exist. There are a lot interesting options that will shake up your game. You also need to be aware of the nasty surprises your opponents may be holding in their hand!

A player is never required to use an event card. You may hold as many cards in your "hand" as you have armies remaining. Excess cards must be discarded.

Some event cards specify that, when played, they must be removed from the game instead of discarded.
