All About Process Kim Grant,2017-02-28 In recent years many prominent and successful artists have claimed that their primary concern is not the artwork they produce but the artistic process itself In this volume Kim Grant analyzes this idea and traces its historical roots showing how changing concepts of artistic process have played a dominant role in the development of modern and contemporary art This astute account of the ways in which process has been understood and addressed examines canonical artists such as Monet C zanne Matisse and De Kooning as well as philosophers and art theorists such as Henri Focillon R G Collingwood and John Dewey Placing process art within a larger historical context Grant looks at the changing relations of the artist s labor to traditional craftsmanship and industrial production the status of art as a commodity the increasing importance of the body and materiality in art making and the nature and significance of the artist s role in modern society In doing so she shows how process is an intrinsic part of aesthetic theory that connects to important contemporary debates about work craft and labor Comprehensive and insightful this synthetic study of process in modern and contemporary art reveals how artists explicit engagement with the concept fits into a broader narrative of the significance of art in the industrial and postindustrial world The Sunday at Home ,1885 **Taking Flight:**

Barrett,2024-11-27 In a day and age where society and culture are veering further away from the teachings of God's word in homes globally it is becoming more and more evident that there is a breakdown within the walls of family homes across this great land Undoubtedly these times of confusion in the home schools and communities are escalating each passing day creating more division and disheartenment With all the spiritual threats robbing people's children of Hope something within the walls of the home must change for the well being of these young ones today more than ever If parents and family leaders don't engage with their children and rein in these apparent issues they will continue to see a generation of people spiraling out of control This book God's Generation of Hope is going to reveal some heart wrenching and eye opening facts about how external forces are creeping inside the lives of families and creating a distance between the household and Almighty God Someone must take ownership immediately for the children's state of spiritual survival Parents action is needed today to instill the Living Hope in the lives of the younger generation like never before **The Romantic Life** D. Yost,2022-08-24 The world is disenchanted Rationalization intellectualization and scientism rule the day We used to see the world as a magical place but now it's just a material space How did we get here The shift comes in part from the rise of a certain kind of secularism one that reduces human experiences to whatever is explainable through observation Love It's just a biological drive Joy a rush of adrenaline Beauty an influx of dopamine If you can't test it it isn't true or so the thinking goes The Romantic Life draws upon eighteenth and nineteenth century Romanticism to provide five strategies to re-enchant the world five ways to imbue the world with meaning truth and beauty According to the Romantics far from being useless encounters with impractical things like the imagination nature symbolism sincerity and the sublime give our lives a richness and depth that cannot be attained on a purely material account of the world By learning from their example we can come to see into the life of things as William Wordsworth called it We can be re-enchanted
